

VIDEO ONE HOW TO LEARN ALL STRUMMING PATTERNS

Take two steps back and start learning the system of strumming instead of individual strumming patterns. Even though this will initially take a little longer it will enable you to play ANY strumming pattern in seconds instead of having to learn hundreds of patterns.

This approach will save you hundreds and even thousands of hours of practicing.

THE ELEMENTS OF STRUMMING

Your hand is constantly moving up and down

- Your hand plays the "subdivisions" of the bar
- Your foot is tapping the pulse of the music constantly

Each up or down stroke can then either:

- 1. Hit the air
- 2. Hit the strings when they are muted
- 3. Hit the strings on a downstroke
- 4. Hit the strings on an upstroke

THE STRUMMING PATTERN MATRIX

This table or "matrix" is an illustration of a bar with 4 strokes divided into 8 smaller parts. This is referred to as a bar in 4/4 with a subdivision of 8 notes.

1		2		3		4	
D	U	D	U	D	U	D	U

- D Downstroke
- **U** Upstroke
- C Chord
- X muted strings
 - Empty boxes illustrate a stroke in the air

Instructions:

- **1.** Tap the floor at 1, 2, 3 and 4.
 - It's absolutely crucial that you do this
 - This is the basic pulse of the music
 - Everything you do is heard in relation to this pulse
 - If you lose the pulse you lose the music
- 2. Let you arm go up and down following the Ds and Us in the table
- **3.** Hit the strings when ever you see a C or an X
- 4. When you see a C let the chord ring out
- 5. When you see an X muted hit the muted strings

VIDEO 2

THE NEXT LEVEL

Now let's add the next level of complexity to your skills. There are more things we can do when we hit the strings and let the chord ring out.

We don't hit ALL the strings all of the time but rather we divide the six strings up into two groups: The high and the low strings.

This then means that each up or downstroke can then either:

- 1. Hit the air
- 2. Hit the strings when they are muted
- 3. Hit the strings on a downstroke
- **4.** Hit the strings on an upstroke
- 5. Hit the low strings
- **6.** Hit the high strings

This table or "matrix" is an illustration of a bar with 4 strokes divided into **16** smaller parts. This is referred to as a bar in 4/4 with a subdivision of 16 notes.

THE LAST LEVEL

Odd subdivisions

You can also divide the space in between the pulse beats up into three instead of two. This changes the feel of your strumming patterns radically.

It's challenging to transition from the even subdivisions into the odd but once you have gotten used to it, it will be far less demanding than you initially thought.
