It is all about the PHOTOS

- Pick subtle and simple patterns for your background layer
- If your background paper is really busy and has too much going on, the photos will get lost.

- Look at the reverse side of some of these busy DSP

How to Pick your Paper

It's really all about the PHOTOS!

SIMPLES can be a GAME CHANGER

- Busy-ish background paper BUT having a Whisper White Simple breaks up the “crazy”

I stick with Whisper White and Very Vanilla for my Simples.
