

## 20. Demonstrative and Reflexive Pronouns

The demonstrative pronouns follow what pattern of declension? \_\_\_\_\_

Near demonstrative pronouns are easy to recognize because they always begin with a \_\_\_\_\_ breathing or a \_\_\_\_\_.

Far demonstrative pronouns always begin with \_\_\_\_\_.

Match the English pronoun with its type.

Fill in the English translations for the near demonstrative pronoun.

Practice filling in the endings of the far demonstrative pronoun. This is great practice for nailing the 2-1-2 pattern. See if you can do it by memory.
