Inspirational Coasters

Supply List

These 9 Inspirational Coasters are completely embroidered and finished in the hoop!

Fabric Supply List:

- 1/3 yard White or Cream tone on tone Background Fabric (cut into 6"x6" squares)
- 1/3 yard Colorful Fabric for the backing (cut into 6"x6" squares)
- 1/2 yard Fusible Fleece or (8) 4 1/2" Bosal rounds

Embroidery Supply List:

- Minimum Stitch Field Required 5" x 5"
- Aqua Mesh Stabilizer (water soluble mesh) or Aqua Mesh Plus (water soluble & sticky backed)
- Basic embroidery kit including small double curved scissors & pointy tweezers
- Embroidery needles 80/20
- Applique scissors
- Wool mat

Threads: (Isacord Thread Colors Listed)

- 0700 Bright Yellow
- 5912 Erin Green
- 3906 Pacific Blue
- 2910 Grape

Bonus Trivet for 8x12 or Larger Hoops

Fabric Preparation

Wash the fabric to remove extra dye.

Background Fabric: (Top side of Coaster)

Starch the fabric.

Cut the prepared **Background Fabric** into 6" x 6" squares (one for each coaster)

Fusible Fleece:

Print the circle shape from the **Template Folder** on cardstock or heavier paper. Use this as your template.

Place the paper template on several layers of the fleece and cut the circle shape out. The template is slightly smaller than the actual size needed. Make 4 circle shapes for each coaster: 2 circles for the top and 2 circles for the bottom or use one pre-cut 4 1/2" Bosal round instead of the fleece.

Backing Fabric:

Cut the prepared **Backing Fabric** into 6" x 6" squares (one for each coaster)

Embroidery Instructions: (Background Fabric)

- Sew Color #1 the Placement Line on the Aqua Mesh Stabilizer (no fabric in the hoop just the stabilizer).
- Center two cut circle shapes of **Fusible Fleece** over the circle shaped placement line or one Bosal round.
- On wrong side of the **Background Fabric** spray a dot of adhesive spray in each corner.
- Flip the **Background Fabric** right side up and center it over the circle fleece shapes.
- Carefully hold the fabric in place while you embroider the tackdown stitch so the fabric doesn't shift.
- Embroider the top of the coaster following the instructions.

Embroidery Instructions: (Backing Fabric)

- Remove the hoop from the module and flip to the wrong side.
- Center two cut circles over the outline of the coaster design (not necessary if you use the Bosal).
- On wrong side of the **Backing Fabric** spray a dot of adhesive spray in each corner.
- Cover the fleece circles with the **Backing Fabric** right side up.
- Re-attach the hoop to the module and continue following the embroidery instructions.

Note:

1. Cutting the fleece first will make trimming the fabric much easier.
2. I do not have you "pre-cut" the circle shape of **fabric** because of the amount of embroidery on the top of each coaster will likely pull the fabric to the center causing the satin cover stitch to "miss the edge of the Background Fabric.
3. I also have available 4 1/2" Bosal pre-cut rounds to use instead of the fleece.

Finishing Touches

When the embroidery is complete:

Remove the aqua mesh stabilizer from the hoop and trim away the excess aqua mesh stabilizer staying 1/4" away from the satin stitches. Fill a sink half full of water and soak the coasters for 5-10 minutes to remove the aqua mesh inside the coaster. I like to gently rub the back of the coaster to help make the aqua mesh dissolve. Rinse & drain the water and squeeze out the coasters. Lay flat on a counter (ha! they will curl up). Let them dry. When dry, trim any wild threads you may have missed. Be careful not to cut the satin stitches. Place each coaster upside down on the wool mat and cover with a pressing cloth. Press flat as a pancake with a **hot steam** iron.

Inspirational Coasters

(Before beginning embroidery please check my website for updates: claudiascreationsaz.com)

Follow the Fabric Preparation & Embroidery Instructions for All Coasters on page #3.

Hoop one piece of Aqua Mesh stabilizer. (No fabric just the Aqua Mesh).

Attach the hoop to the module. Open the **Inspirational Coasters** folder.

Select the folder with the format your machine reads.
