

Workshop Two: Energy Policy for the ISO 50001:2018

Clause Numbers	5.2 Energy Policy
Objectives	To understand how the current business Energy Policy either meets or does not meet Clause 5.2 and what would need to be added to ensure that this clause is met. If you do not have a current policy use this time to draft one up.
Task/Output	<ol style="list-style-type: none"> 1. In the group review the current Energy Policy and check if it is: 2. Appropriate to the purpose and context of the organisation, including the nature, scale and environmental impacts of its activities, products and services. 3. Provides a framework for the setting of Energy objectives 4. Includes a commitment to ensure the availability of information and necessary resources to achieve objectives and energy targets 5. Includes a commitment to fulfil its compliance obligations 6. Includes a commitment to continual improvement of the EnMS to enhance energy performance 7. Be maintained as documented information 8. List how is it communicated within the organisation? 9. List how is it available to interested parties?
Questions to consider?	What changes would need to be made to the current Energy Policy to meet the requirements above?
	Who will make the changes and sign them off?
	How will you communicate the Energy Policy?
