NOTE: Please complete the lessons in the order they are provided.

### **Cluster Recipe 1 - Single-Sided Frame Cluster**

- Frame (or frame cluster)
  - Rectangular or circular
  - Shadowed frames are best
  - Examples: paper, wooden, or plastic
- 2-4 elements (large, long, thin)
  - Unshadowed overlays go behind the frame
  - Shadowed elements go in front of the frame
  - Examples: paper strips, leaves, twigs, scatters, or curling ribbons
- 1-2 elements (small, circular or square)
  - Must be shadowed
  - No overlays
  - Examples: tags, alpha, flowers, hearts, or small berries

### **Additional Guidelines for Recipe 1**

- Keep all elements on one side of the frame. This could be the top, bottom, left, or right side.
- Keep all elements linear in design (going the same direction).
- All elements should overlap behind or in front of the frame.
- All elements should overlap each other.
- Use elements from the same kit.

Finish your scrapbook page that uses this technique and [share it with us in Community](#).
