

## Break Statements Exercise Solution

```
1. web_list = [ "start" , 10313 , 1415 , "afvav", "vbagaga", "mid", 3.415,
{"A":12121}, {"xava":11} , 1.21, "end"]
2.
3. for element in web_list:
4.     if element == "end":
5.         print("Found them! Stop the code!")
6.         break
7.     else:
8.         print("Not yet. Still searching..")
```
