

Technical Notification 269

Dated: Sept. 9, 2021

Revised: July 28, 2022

Revised: March 30, 2023 (Excel Intermediate Plus and Intermediate Segment Parameters)

- **IJS Parameters for Nonqualifying-Level Events**
- **Scales of Values for custom U.S. Elements**
- **IJS Scoring Guidance and Clarifications for Adult Dance Events**

Note: This Technical Notification replaces Technical Notification #237.

This Technical Notification provides numeric factors and event formats for IJS scoring of nonqualifying-level events in competitions held by U.S. Figure Skating clubs.

- Rule 1041 governs the usage of the International Judging System (IJS) and 6.0 majority scoring systems.
- When clubs choose to use IJS for nonqualifying-level events, per Rule 1235(C) results are calculated using the computer program selected by U.S. Figure Skating as the official calculation software. This Technical Notification serves as notice of the values and factors for use with the official calculation software.

Included:

- Tables of Factors for all free skate events pre-juvenile and below and other nonqualifying events.
- Tables of Factors for interpretive and showcase nonqualifying events.
- Scale of Values for non-standard elements for half-jumps, compulsory moves and moves in the field.

Note to Accountants: Consult the latest IJS Parameter Chart posted on Accounting Central.

Segment Parameters for Compulsory Moves

- These events consist of specific required elements skated together as a program without music
- They are scored with both element scores and a single program component score (Skating Skills)
- These moves typically do not have levels, so a technical panel is not used
- For moves that would normally have levels, Level 1 shall be used, and the judges may reward well-executed added difficulty in their GOE marks
- Deductions applied for each violation will follow Rule 1071(C). For all categories not mentioned in Rule 1071(C), the deductions applied for each violation shall be -0.25

Segment Parameters for Moves in the Field, Jumps, Spins, Footwork

- These events consist of some number of elements, specified by the LOC. They are scored with element scores only
- For Juvenile and above, spin levels would be called, and step sequences would be called choreographic steps (ChSt) either confirmed or not confirmed
- For Pre-Juvenile and below, spins would be called Level 1, Level Base (B) or No Level
- For Pre-Juvenile and below, step sequences would be called choreographic steps (ChSt) either confirmed or not confirmed
- For Adult categories, the maximum spin levels that may be called are:
 - Adult Pre-Bronze and Adult Bronze = Level 1
 - Adult Silver = Level 2
 - Adult Gold = Level 3
 - Masters = unrestricted
- For Adult categories, step sequences would be called choreographic steps (ChSt) either confirmed or not confirmed, and may include moves in the field and spirals
- Judges should reward well-executed added difficulty in their GOEs marks
- Deductions applied for each violation will follow Rule 1071(C). For all categories not mentioned in Rule 1071(C), the deductions applied for each violation shall be -0.25

Substitute SOV Instructions for Adult Pattern Dances (Solo and Partnered) with Reduced Numbers of Sequences

Per Rule 8075, adults dance a reduced number of sequences in adult partnered and solo pattern dance events for the following dances: Tango Canasta, Cha Cha, Dutch Waltz, Tango Fiesta, Fourteenstep, Foxtrot, Hickory Hoedown, Kilian, Paso Doble, Quickstep, Rhumba, Rhythm Blues, Rocker Foxtrot, Ten-Fox, Viennese Waltz and Willow Waltz.

To keep the base values of all pattern dances equivalent when they are judged with the International Judging System, three reduced pattern dance SOV tables have been added to the software to substitute for the selected dance SOV. These reduced pattern dance SOVs provide the same calculation for the reduced number of sequences as if the skaters had danced the standard number of sequences.

The following will be used for the dances with a reduced number of sequences in all IJS-judged adult partnered and solo pattern dance events:

For bronze and lower dances, reduced to two sequences

Substitute Dance Name: Reduced Pattern Dance 2 [see *Scale of Values (SOV) – Custom U.S. Elements page 21*]

Use for the following adult solo and partnered pattern dances: Tango Canasta, Cha Cha, Tango Fiesta, Hickory Hoedown, Rhythm Blues, Ten-Fox, Willow Waltz, Paso Doble and Viennese Waltz

For pre-silver dances reduced to three sequences

Substitute Dance Name: Reduced Pattern Dance 3 [see *Scale of Values (SOV) – Custom U.S. Elements page 21*]

Use for the following adult solo and partnered pattern dances: Fourteenstep, Foxtrot, Quickstep, Rhumba and Rocker Foxtrot

For dances reduced to four sequences

Substitute Dance Name: Reduced Pattern Dance 4 [see *Scale of Values (SOV) – Custom U.S. Elements page 21*]

Use for the following adult solo and partnered pattern dance: Kilian

Notes for Accountants:

Substitute one of the three reduced pattern dance names (Reduced Pattern Dance X, where X is the number of patterns being skated) from the dance dropdown in the segment setup window for the named dance. E.g., if Pattern Dance 1 is Tango Canasta, enter “P1 Tango Canasta” in Name and TV Name; but instead of selecting Tango Canasta in the Dance Dropdown, scroll down to the bottom of the compulsory dance list and select Reduced Pattern Dance Two.

For manual IJS element entry, the element code for sequence 1 is RPD21Sq instead of CT1Sq; element code for Sequence 2 is RPD22Sq instead of CT2Sq, etc. Both the original named dance as well as the substitute dance (providing the correct calculation) should appear on the results reports.

There is no need to edit the Elements Table or Scale of Values. The three reduced pattern dance SOVs perform this function and provide the correct calculation for all adult pattern dances where fewer sequences are skated per Rule 8075.
