Tips

- Don't Cram
- Never change your answer without finding Evidence in a later question it was wrong
- Answer the question as written, don't over analyze
- Look for Except, always anything that changes the meaning of the question.
- Rule out obvious wrong answers to help with educated guesses
- With Math choose closest answer it may not be exact, don't let this throw you.
- If more than one answer is correct it may be all the above.
- **If more than one answer is correct and there is no all of the above consider which is more correct, or you would do FIRST.**

ExamFacts Test Taking Tips

- Look for key words, read the question twice then anticipate the correct answer, before looking at the answers on the exam.
