

# Lesson 10 - Review

## LESSON PLANS

### OBJECTIVE

The objective of this review is to bring back to memory most of the vocabulary and phrases you have been practicing.

The verbs and phrases you have learned are some of the most used. I did this so you can easily add to those phrases and change them up a little.

And for any questions about new vocabulary, you are free to contact me in the group. :)

### TIMELINE

The suggested timeline for this review is 2 to 3 weeks.

The key to learning a language is practice, practice, practice.

So if the kiddos can review with this video 2 or 3 times, that would be ideal: reviewing with the video once a week and reviewing the phrases the rest of the week.
