

Get The Most!

Welcome!

Before we get started Streamlining Your Home, there are a couple of things to keep in mind as you go through this program to make sure you get the most out of it!

1) Complete the Tasks in Order

I designed this program to give you the biggest results in the shortest amount of time possible. The best way to get these results is to complete the tasks in order.

If you don't need to complete a task for some reason, feel free to check it off and move forward.

2) Finish Each Task Before You Move On

The tasks build on each other, so each task will be easier to do if the previous tasks have been completed.

Get The Most!

3) Use the Worksheets

Some of the tasks have worksheets that will help you complete the tasks.

I will let you know when there is a worksheet that goes with the task, and you will be able to download the worksheet within the task.

Using the worksheets will make all of the tasks clear, you will be able to complete the tasks more quickly, and it will make it easier to show the new systems to your family members when it is time to get them involved.

4) Start Today

The sooner you start, the sooner you will see results!
