

## LIST OF REGISTERED STUDENTS

---

To continue your practice with the protocols, here is the list of the students and their contact information.

- a. If you did a first round with a partner during the class, contact this partner to do the second round of the protocol you were working on.
- b. If you did not practice one or several protocols during the class, contact some students in the list below to find a partner to practice both rounds for each protocol. (a different partner for each protocol is recommended).

**Be aware that some students do not wish to practice the protocols, they will kindly let you know.**

If you have any questions or comments regarding the protocols or your experience with them, you can contact me by email at [mab@biodecoding.com](mailto:mab@biodecoding.com).

**Kind reminder:**

- This is a course practice, meaning it's not meant to be a full therapeutic session. The student being the "therapist" is not required to resolve the "patient"'s issue, and the "patient" should not expect the "therapist" to resolve their issue. The goal of the exercise is to experience on yourself or trigger in your "patient" a positive change regardless whether it is a major or a small change.

**Duration for each protocol:** 30 to 45 minutes per round.
