Rationale:

*** The purpose of this resource is for teachers, tutors, school volunteers, and home school parents to have access to a systematic intervention program that gives struggling readers extra practice each day.

••••••••••••••••PLEASE NOTE••••••••••••••••

Each passage is **NOT** individually leveled, however, they are organized into the following level ranges:

A-D: 20 passages

E-G: 20 passages

H-K: 20 passages

L-P: 20 passages

Q-T: 20 passages

U-W: 20 passages

X-Z: 20 passages

The daily intervention lessons contain extra practice with:

1. Reading Fluency
2. Comprehension (with weekly targeted skills)
3. Word Work (with weekly targeted skills)
4. Vocabulary (5 daily vocab. Words in every passage)

*** The intervention program is flexibly designed to be used either...

1. One-on-one with teacher
2. Independently during an intervention time
3. With a partner, tutor, or school volunteer (the students and teacher pages include clear directions for an aide, volunteer, or even older student to administer the intervention.)
4. In a small guided group
5. In a home school setting

*** The Intervention Program Set Four, Level Ranges A-Z includes...

1. 140 reading passages with appropriate content and language for levels A-Z. (20 fiction and nonfiction passages per level range)
2. Reading passages in 4 different student-friendly formats
3. Teacher/tutor fluency page with clear directions, running record with word count, and space for scoring fluency skills.
4. Targeted Comprehension questions for each passage
5. Targeted Word Work activities for each passage
6. 5 Bolded vocabulary in each passage, with space for students to define each word. (2 words in the A-D set)
7. Teacher/tutor comprehension, word work, and vocabulary instruction pages with space to collect data and additional comprehension questions for guided instruction.
8. Progress monitoring pages for teachers/tutors to track student growth with fluency, comprehension, word work, and vocabulary.

"April Fool's Day"

My family loves April Fool's Day. Every year we play pranks on each other. I think I am the champion of pranks. Last year I put glue in my sister's cereal. It mixed in with the milk so she didn't even notice. When she took her first bite her face turned all funny. She knew it was me because I was laughing so hard. My dad put salt in the sugar jar. So, when my mom added sugar to her coffee she was really putting salt in it. She took one sip and spit it in the sink. She was so mad at my dad, and he just laughed. To get revenge, my mom made caramel apples. But instead of apples, she made them with onions. My dad's face squeezed tight when he bit into the onion. My mom just smiled at him. This year I'm planning my best prank yet. I'm going to put fake cockroaches in my sister's lunch bag. We love pranks!

Understand It! Answer the following questions after reading:

1. Which word best describes this family?
a. serious
b. silly
c. lazy
d. tired

2. Which event will most likely happen next in the story?

Passage 78

"Unique Landforms"

A landform is any natural feature on Earth's surface that is made of rock or dirt. They can be as large as a continent or mountain or as small as a pond or hill. There are many different types of landforms including mountains, valleys, canyons, volcanoes, deserts, and oceans. Geologists are scientists who study landforms. They analyze how different landforms are created. They consider all kinds of factors, like weather, water, wind, moving sheets of ice, or if the crust of Earth's plates are crashing together. One thing geologists all agree with is that Earth is always moving. That means landforms are constantly changing. Most landforms don't change quickly; they change so slowly that we don't even notice just by looking. How quickly water flows in and around a landform is a key factor in how landforms change shape. It takes years of documenting and research to notice landform changes. The way one landform is formed can affect other landforms around it. For example, the steep slope of a mountain or hill will cause water to race down and create a valley or canyon below. Overall, landforms can be found in different shapes and sizes all over the world. We should learn about landforms so we can understand the natural features of our world.

Understand It!
Answer the following questions after reading:

1. One thing readers learn about landforms is…
a. they are all huge
b. there are 4 types
c. they change quickly
d. geologists study landforms

2. What is described right after the author talks about documenting?
a. geologists
b. landforms affect other landforms
c. natural features
d. landform sizes

3. Which is the best way to describe landforms?
a. there are many shapes
b. they're formed by rain
c. they're all the same
d. they affect the sun

4. What is the author's opinion of landforms?
a. they serve no purpose
b. they have no impact
c. we should learn about them
d. we don't need to learn about them

Passage 72

"Eli Whitney"

Eli Whitney was born in 1765 in Massachusetts. He was raised on a farm, where he loved spending time tinkering in his dad's workshop. As a child, Eli was much more fascinated with tools and machines than he was with the actual manual labor of farming work. He enjoyed taking things apart, just to see how they worked, then trying to reassemble them back together. Eli went to Yale College and then moved to become a tutor. Before he started his first job he met a woman who owned a large cotton plantation in Georgia. They became friends so Eli decided to move to the plantation instead of taking the tutoring position. While spending time on the plantation, Eli noticed how long it took the workers to pick the cotton seed out of the the white fluffy cotton. He decided to spend the winter building a machine that could do the job much faster. He called his new machine the cotton gin. Basically, he used a wire screen with a combination of small hooks to pull the cotton fibers through. His new machine could clean the seeds out of the same amount of cotton in just a few hours that it would take several people an entire day to do. At the time, there were slaves in America. The invention of the cotton gin helped them get the seeds out of the cotton faster, but it caused plantation owners to want more slaves to do the actual picking in the fields. Many believe the cotton gin was a major factor that helped lead to the Civil War that the north eventually won and ended slavery in the United States. Eli Whitney was an inventor who changed the course of history for all of America.

"We Bought a Boat"

I have **vivid** memories from when I was much younger of spending many days riding a boat all summer long. I remember lots of bumpy waves, sunshine, and playing in the sand. My parents filled in my memory **gaps** by telling me about all our adventures. They said we would anchor the boat and spend hours playing in the water. They used to give us naps on the tiny bench in the back of the boat. I don't remember when my parents sold the boat. All I know is that they have been talking about wanting another boat for years. I can see the looks they give each other when they talk about boating on those perfect summer days, like they wish they were riding on the water at that very second. So when my parents announced they had finally saved enough to buy their dream boat I was **ecstatic**! They spent months driving around and searching for their perfect boat. They weren't going to settle and buy any old boat they saw; they were being strategic and picky. I was getting **impatient** because all I wanted to do was spend my summer on the water. Finally, my parents discovered their dream boat. We all went to the boat dealership to see it for the first time. It was incredible! It had enough room for all of us to bring a friend when we go boating. It had a bathroom with a sink and a full **enclosure**, so we could go boating all winter and not even be too cold! My parents were giddy like little kids when they decided that yes this was the boat for our family. I could see how proud they were to purchase a boat that our family could make so many memories on. I was so proud of them too!

Directions: Instruct student to read the following passage 3 times. Let student know you will be timing the readings. Encourage the student to read smoothly (not too fast, or too slow). Write the 3 times below.
*** Circle errors from the 1st read in *red*, the 2nd read in *blue*, and the 3rd read in *black*.
*** With the same colors, put a √ next to any words the student self corrects (SC).

Donald was a stubborn donkey. He grew up in a beautiful pasture with 10 brothers and 13	17
sisters. Donald's parents were strict, but also fair. All of Donald's brothers and sisters	31
loved spending their days grazing in the pasture. There was one acre of land that all the	48
donkey kids knew was off limits. Is was a special place, where the grass was full and a	66
shade of green so rich that most donkeys could only dream of eating there. That land was	83
reserved for only Donald's parents. They said raising all these donkeys earns them the	97
right to the best grass on the land. Even though Donald's entire family loved spending their	113
days grazing the fields, Donald could care less. All he wanted to do was sit on the couch	131
like a lazy donkey and play video games. He was addicted to video games, especially the	147
race car games. He loved zooming around the tracks at lightening speed. Donald's	160
parents despised his obsession with video games. They got so sick and tired of his game	176
playing that they took his entire game system away. Donald through the biggest donkey fit	191
he could to get his games back. And when that didn't work, he got desperate. One night	208
after his entire family went to sleep, he snuck out of the barn and went to his parents'	226
special pasture. He spent the entire night eating as much grass as he could. By morning	242
he was more stuffed and exhausted. He fell over in the field, his belly swelling. His	258
parents found him moaning in pain, and they said that the pain he was in was punishment	275
enough. Donald never went to his parents' pasture or played video games again.	288

"Tips for Fluency"

The following are tips for administering and scoring the fluency portion of the intervention program

Tip #1: If a student gets stuck on a word, wait 3 seconds and then tell the student the word. Circle the word as an error. This will also impact the student's Rate and Tone score.

Tip #2: If a student repeats a word, it is not an error. But it will likely affect the student's Rate and Tone score.

Tip #3: If a student reads a word incorrectly, it counts as an error. Circle the word. This will impact both the Rate and Tone score and likely some comprehension.

Tip #4: If a student adds a word that is not part of the passage, write the word in and count that as an error. ✓

Tip #5: If a student reads a word incorrectly and then goes back to fix the word, it does not count as an error. It is called a self-correction. Put a   next to the word. SC are great because it tells us that the student recognized the original word did not fit and it needed to be fixed to have the text make sense.

Tip #6: Time the student and document how low he/she takes to read the passage each time. Don't be afraid to show the student the results. This is a great opportunity for a lesson on how rereading can improve our fluency!

Tip #7: For scoring the Rate and Tone, consider the flow of the reading by asking yourself the following questions;
   1. Did the reader repeat a lot of words or phrases?
   2. Did the reader pause at commas and stop at periods?
   3. Were there many unnatural pauses and breaks?
   4. Did the reader read too fast? Too slow?
