

Autumn Leaves Chords 1 Picking

You now add a picking pattern to the first half of Autumn Leaves.

Start by watching the video for tips on how to pluck this pattern and apply it to the chords.

Then, play the example below without any tempo or rhythm.

Add in rhythm and a metronome when ready and build up to play over the audio example and backing track when ready.

From there, alter the rhythm, experiment with the picking, and have fun making this pattern your own over these chords and beyond.
