

OUR OBJECTS AND VISIONS

The objectives of Ruqyah under the banner of Sheikh ben Halima are:

1. To help people who are suffering in life due to magic, Jinn and Evil eye (Nazr).
2. To protect the Imaan and Aqeedah (beliefs) of Muslims from shirk.
3. Da'wah to non muslims who come for Ruqyah
4. To fight shirk, magic and sorcerers
5. To break the business of Aamils or Raaqis who charge too much and keep Ruqyah a secret.
6. To assist the community socially as many people stuck in substance abuse, prostitution, crime etc have magic done to them to ruin their lives.
7. Our vision is to eradicate shirk from the lives of people and bring total reliance in Allah also to have at least one raaqi per home or family. Insha Allah

The method of Sheikh Ben Halima Abderraouf is simple and is offered to anyone who wants to learn, treat himself, his family and or others.

In this way it is a Jihad, a struggle for the sake of Allah. You are also being oppressed and the dua of the oppressed is always answered and you must stand up all night making salaah and dua so it must work. You must take dua very seriously.

An example, is how a saahir (magician) makes knots on a person many times and when the person tries to remove the knots it will take time because the knots are tied over and over again and the sihr (magic) will be complicated and this is how the saahir will become famous and improve his business. You can see that the saahir will spend the whole night making the sihr and praying to Shaytaan (or their gods) yet we cannot spend one night praying to Allah, yet we expect the help and protection from Allah.

The thing is that if the people working for Shaytaan are ready to make all sorts of sacrifices for Shaytaan then we must be ready to make many sacrifices for Allah, otherwise this is how they are going to beat us. We have the truth and we have Qur'aan but we are not working hard with it.

As a Muslim how can we be afraid of Shaytaan and sorcerers? Sorcerers pray over and over to Shaytaan and all he does is just give them very little power so if you are not afraid of Shaytaan then why be afraid of the very little power of a sorcerer. Remember that whatever you do for Islam, Shaytaan will fight you.

If you look at the people making Sihr – they are not afraid of Allah or people and are so proud and will even admit to you that they even made sihr on you but we the ones who pray to Allah and believe in Allah yet we are afraid of them. This is how they beat us. The work of Ruqyah is to fight against Shaytaan for surely he has waged war against man from the beginning of creation of man until Qiyaamah. May Allah help and protect us.
