Hello,

I recently placed an order (#13565) with Ready Barn. The items I purchased are housewarming gifts for my niece, Helen Kang, who recently purchased a new home. Therefore, her address was provided as the delivery destination. Several days have passed, and my niece has yet to receive these items. I would appreciate it if you could find out what has happened and let me know when my niece can expect delivery. Also, I would like to ask you to return the money I paid for expedited shipping.

Additionally, I do not recognize item number 7564 that I was charged $14 for on my receipt. Please let me know how to send it back.

Coffer Digital closed a deal yesterday with GPZ Capital. GPZ will make a significant investment in Coffer Digital, enabling the funding of a new online marketing application called Re-pitch. This sales-boosting software works by generating a pop-up window that reminds online shoppers of products they have already viewed, after they have navigated away from the product page.

GPZ’s knowledge of data and marketing has enabled them to make successful investments in three other software development firms in the past five years. Coffer Digital’s strong company reputation and top-notch employees easily support GPZ’s decision to invest. “Coffer Digital has a solid plan for distributing Re-pitch, so it was an easy decision to invest with them,” said Jessica Gould, spokesperson for GPZ.

TERMINAL C TO REOPEN

(May 23) Harrison City Airport’s Terminal C will reopen to the public on June 1 following a two-year renovation project.

The project added eleven new gates, allowing the terminal to accommodate more flights. The three major airlines that used Terminal C before the renovation will now be back in operation there. Also at Terminal C will be newcomer Paik Airways, a regional carrier that is expanding its routes.

The terminal’s new lobby features an efficient check-in process and a state-of-the-art baggage-handling system. Passengers will enjoy free Wi-Fi in the waiting area, which also contains shops and restaurants.

At one point during the renovations, it looked as if the construction team would miss its deadline. An environmental impact review conducted by the city questioned the placement of a parking lot. The planners solved the problem by moving the parking lot to the other side of the airport and instituting a shuttle bus service.

“Thanks to the cooperative efforts of all stakeholders, the project was completed by the deadline with no budget overage,” said Arturo Benetti, the airport’s chief operating officer. “The improvements to Terminal C will enable us to continue providing Harrison City with safe, comfortable air travel.”

Subject: Meeting with Slonim Company buyers

Hello, Sven,

I’m at the Harrison City Airport to catch the 3:30 flight home, but I want to give you a quick update. The meeting at Slonim went well. They are very pleased with Coover Brothers products and expect to double their orders next year. In fact, they offered to feature our bedroom and dining room sets at the upcoming Home and Garden Exposition. I’ll give you all the details tomorrow.

Regards,

Thomasina

**Comments:**

I have been looking at various roofing materials, and the wide range of paint options makes your company my top choice. My shed building is an odd shade of purple, and I want to find a color that complements it. But I have a question. I would like the new metal roof to be placed on top of the old shingle roof I have. This would save money on time, labor, and disposal. Is that something you recommend? I have spent a lot of time reading online forums for professional contractors, and there are mixed opinions about this.
Dear Mr. Keenan,

A sales representative will contact you by phone within 48 hours, but first please look over the attached product catalog. Here are the four basic roofing types that we offer:

SLP Snap Lock – Steel panels with a locking feature that enables rapid installation.
XM Panel – Aluminum panels with superior corrosion resistance. Ideal for wet climates.
QR Rigid – Low-cost panels that can be installed directly on top of an existing roof.
WT Panel – Our most durable commercial-grade steel. Available only in white and gray.

Thank you,
Nicola Shertz, Administrative Assistant, Zell Exteriors
