Welcome to HPC

Basic Hypnosis

Welcome, we are thrilled you chose HPC for your Hypnosis training. We know you have a choice of schools and appreciate the trust you have in our program. Whether you are just getting started to become a Hypnotherapist or are including Hypnosis to your practice we are

here to support, educate and coach you all the way through to the Masters Certification.

BASIC HYPNOSIS

This program is 170 hours for Basic, the complete Master program is 550 hours of Hypnotherapy training, most schools and certification programs only require 220 hours; Our students graduate with the knowledge and confidence you need to start your career as a Hypnotherapist. Our curriculum base was a 4 year degree in the 70's, we have taken all the information, updated the reading, practise and knowledge as well as introducing a very metaphysical view toward the holistic healing of

hypnosis that has been used for over 5000 years. Believing in the Body, Mind and Spirit connection, knowing that "Change can Happen Instantly" we understand and teach with an open mind, believing and experiencing the healing power of the mind, knowing we have the ability to heal our bodies by changing our self talk, emotional triggers and clearing out unwanted beliefs stored in our Subconscious.
