**This tip is amazing for avoiding spelling errors on printed or published pages.**

**Steps for Spellchecking (Photoshop Elements):**

- In the Layers panel, double click on the thumbnail of the type layer to highlight all the text.
- Press Ctrl C (Mac: Cmd C) to copy the highlighted type.
- Go to any application that uses spellcheck.
- Press Ctrl V (Mac: Cmd V) to paste the type into an app that recognizes spellcheck.
- Correct any errors.
- If corrections were needed, highlight all of the type.
- Press Ctrl C (Mac: Cmd C) to copy the highlighted type.
- Go back to Photoshop Elements.
- Double click directly on the thumbnail of the type layer to highlight all of the type again.
- Press Ctrl V (Mac: Cmd V) to paste the corrected type.
- Click the checkmark to commit the change.

### **Steps for Spellchecking (Adobe Photoshop):**

- In the Menu Bar, choose Edit > Check Spelling.

NOTE: This will spellcheck all visible, unlocked layers in the current document. Any type layers that are hidden or locked will not be spellchecked.
