YIKES! So many options but you want the ones with .SVG on the end

SVG Files

Upload from Computer

Each of these can be a bit different depending on the designer
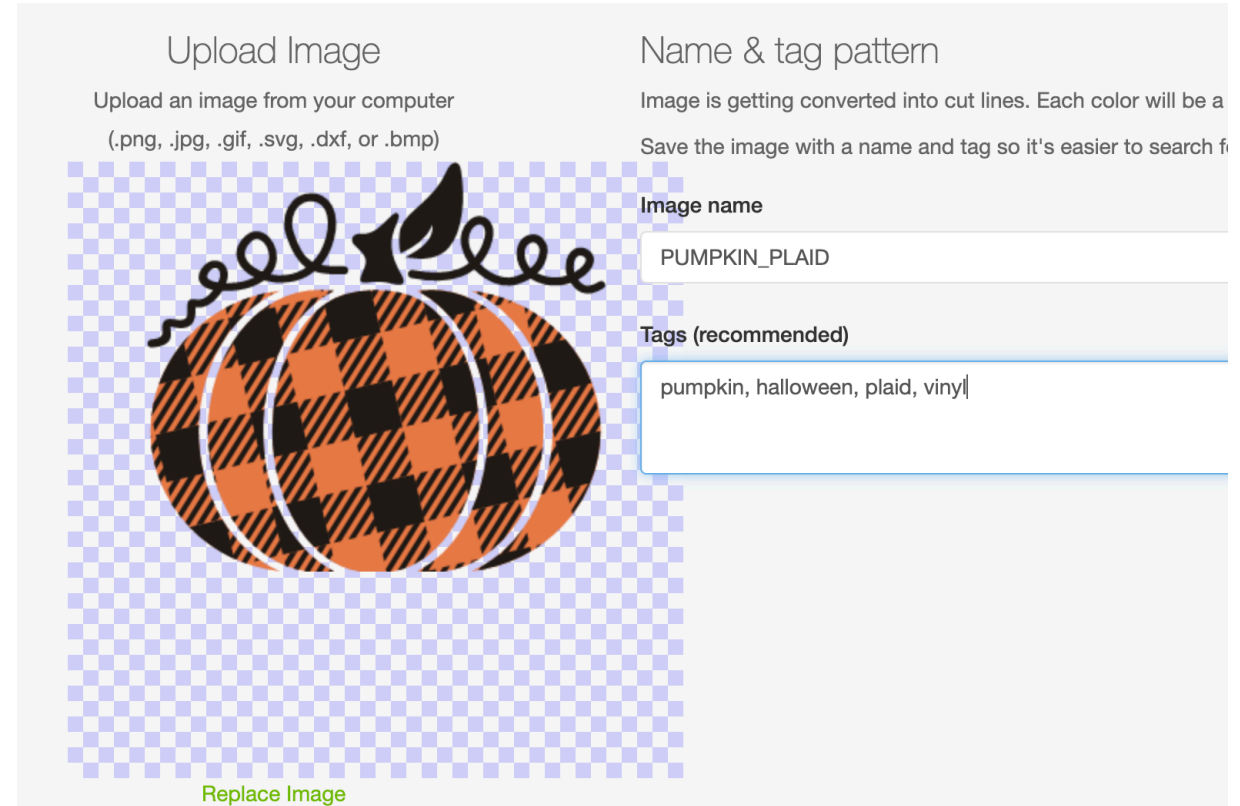

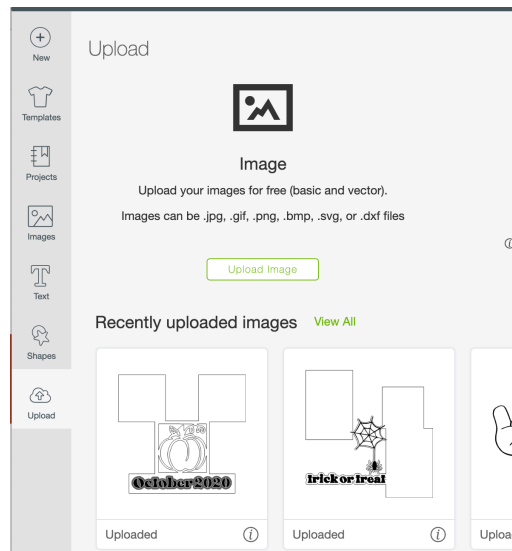

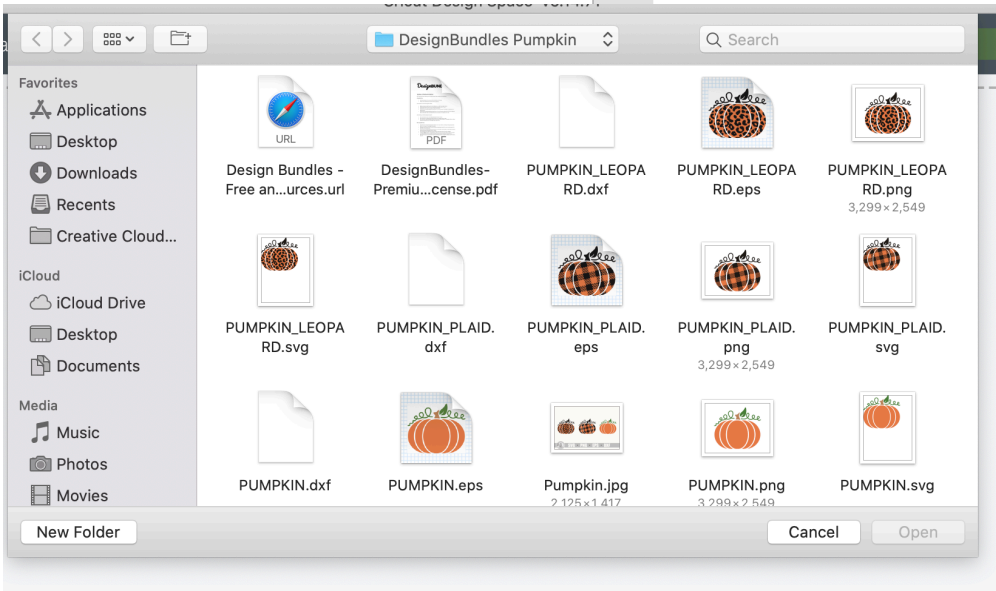

Add a description and tags to help you know what this file is.

Add to the Design Mat
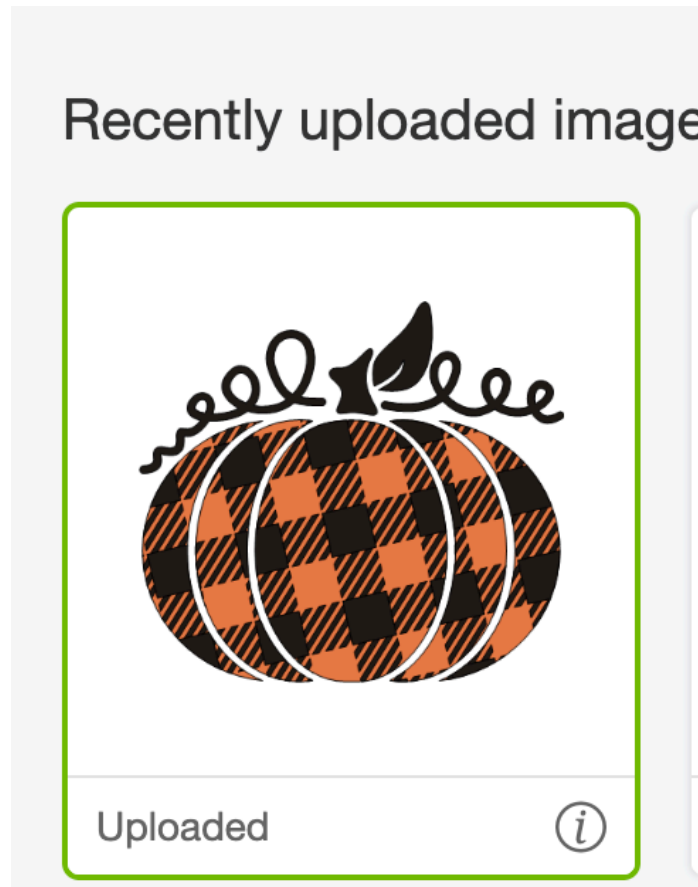

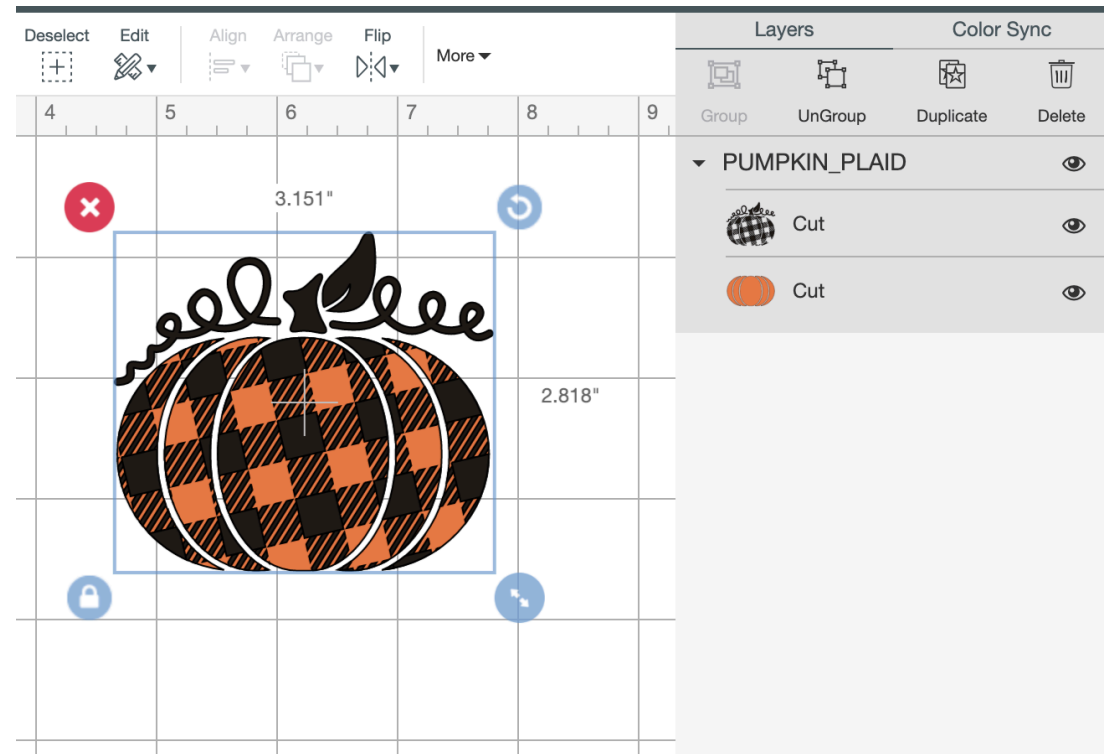

Remember, Cricut cuts by color

- And what you see is what you get
- No surprises about sizing or where the cut will be on your mat
- Sooo the black layer is going to be LOTS of itty bitty pieces to create the plaid so I am planning to cut the top layer of vinyl but you can use paper and vinyl.
