

PRODUCTS

Products you will need are:

- Tent
- Barrier cream
- Spray tanning gun
- Spray tanning solution
- Sticky feet
- Couch roll
- Wet wipes

LA Tanning do good reasonably price kits – they have a good guide colour when tanning, making it easier to say. Once confident move onto crazy angel solution as it has a lovely colour, lasts long & doesn't go patchy, but the guide colour is very light making it trickier to see where you have already sprayed.
