

# The 3 Step Draw Stroke

The 3 Step Draw Stroke is simply a condensed version of The Big 6. All we are doing is combining some steps together in order to make your draw stroke as smooth as possible. Once these steps become ingrained your draw stroke will become one smooth step. But for now, go by the numbers.

Stance + Grip = **Step 1**

Presentation + Sight Alignment & Sight Picture = **Step 2**

Trigger Control + Follow Thru = **Step 3**

## NOTES:
