Scrappping with Filters, Stamp & Paint Final Challenge & Quick Reference Guide

TRANSCRIPT

Congratulations! You have successfully finished Scrappping with Filters, Stamp & Paint. I do hope you had fun with the lessons and challenges in this class and I hope you learned boatloads about scrapbooking and your software along the way.

If you'd like a quick reference recipe card for the Stamp & Paint technique, you'll find a link to download one below the video in this classroom. The recipe card is formatted for both 4x6 and 5x7 printing. As you journey on using this technique on your scrapbook pages and greeting cards, don't forget to think outside the box when choosing an image.

This technique will work great on many kinds of photos, many kinds of scrapbook elements and many kinds of scrapbook background papers. Oh, and don't forget to share your creations in your favorite online gallery. Using the hashtags of #digitalscrapper and #stampandpaint will make your images and the images of other online shares easy to find. I am so glad you joined me for Stamp & Paint. This has been Jen White owner and instructor for Digital Scrapper and QwikLearn.
