What are the likely steps to get to your ideal job? _____

4. Write you goal below. What position you want? What wage do you want to earn? How long are you expecting it to take? What steps are involved in your process? How will accomplishing it make you feel?

Example: I've always been interesting in house construction. The thought of building a house that a family calls home really excites me. In 10 years from now I will be so skilled at house construction I will have my own construction crew that not only builds houses but helps families design the ideal home for their lifestyle. I will work tirelessly at developing my skills over the next 10 years to become a master builder.

5. What is your process to get to where you want to be? Start with your entry position.
