

Examples of animal adaptations

Identify and explain some of the different adaptations you have learned about in animals. Make sure you can identify at least one structural and one behavioural adaptation

Animal 1	
Adaptation (Describe it)	
Type of adaptation (Structural or behavioural)	
Explanation (How does it help the animal survive?)	

Animal 2	
Adaptation (Describe it)	
Type of adaptation (Structural or behavioural)	
Explanation (How does it help the animal survive?)
