

Product Catalogue

humaninsight

Introduction

In this catalogue, you will find an overview of all products and services that Human Insight offers. In addition to the online assessment tools, Human Insight offers a wide range of supporting products that can help you use the online assessment tools; from books to demo material, from training material to posters.

All prices in the catalogue are the same in euros (€), dollars (\$) and pounds (£).

If you need materials that are not (yet) in the catalogue, you can always let us know. Perhaps we could offer the desired product in the future. Certain products can of course be customised. Should this be desirable, please contact our designer Jim van Klaveren (jvanklaveren@human-insight.com).

Table of contents

| | |
|--|-----------|
| Tooling | 4 |
| With this tooling, Human Insight offers insight into the growth potential of individuals, teams and organisations. | |
| Services | 12 |
| Provides additional support when working with our tools. | |
| Pamphlets | 14 |
| Offer insight into the tooling and can be distributed to customers. | |
| Topics | 18 |
| Provide insight into the different themes Human Insight can help with. | |
| Supporting materials | 22 |
| Offer support for workshops, one-on-one assessments and team sessions. | |
| Books | 36 |
| Offer support with and gain insight in the tooling. | |
| Business games | 40 |
| Provide insight into the tooling and concepts in a playful and interactive way. | |
| Academy | 44 |
| Through the academy you can learn more about the tooling or you can certify for certain modules. | |
| Trainings | 48 |
| With the training you can learn more about the tooling and you can get certified. | |

Tooling

In this chapter, you will find more information about all the tooling that Human Insight offers, such as product descriptions, prices and available languages. With the help of this tooling, Human Insight offers insight into the growth potential of individuals, teams and organisations.

AEM-Cube®

The questionnaire is available in even more languages, please contact Human Insight for more information.

Product description

The AEM-Cube is a scientifically based assessment tool that shows where individuals naturally contribute to change and growth and that provides insight into the strategic diversity of teams and organisations. The AEM-Cube can be provided as self image(s), feedback image(s) or both self image(s) and feedback image(s). Self images apply to the person who fills out the questionnaire. Feedback images are formed by others filling out the questionnaire about the person in question.

TeamQi

Product description

The TeamQi is a tool that helps teams assess the Quality of Interaction in specific meetings or project initiatives. It enables team members to think about 'how we can improve the quality of our interaction in such a way that we get the very best from all of the team members in tackling the kind of problems and challenges we face, developing the best solutions and having the highest level of commitment to follow through on those solutions'. In other words, it is a variant of the Quality of Interaction questionnaire, that you can use very practically in sessions.

Topics

In this chapter, you will find more information about all the topics that Human Insight can help you with. By means of these themes, Human Insight provides insight into the growth potential of individuals, teams and organisations.

<https://human-insight.com/strategic-solutions/>

Strategic Diversity

Product description

Strategic diversity, also called the strategic use of cognitive diversity, focuses on the difference in how people think and process information. Good strategic diversity within an organisation can ensure that team members challenge and complement each other. It provides more perspectives and greater understanding of each other's ideas.

Product

- Strategic Diversity

Cost per unit

Request via Human Insight

<https://www.human-insight.com/strategic-diversity/>

Quality of Interaction

Product description

Our Quality of Interaction approach helps you, management teams, CxOs and teams in general to create a work environment based on trust and desirable behavior in the workplace. It helps to create a common language and analysis of which underlying routines affect overall performance, which can be easily overcome by realising the change needed.

Product

- Quality of Interaction

Cost per unit

In agreement

Request via Human Insight

<https://human-insight.com/strategic-solutions/>

Profiting Teams

Product description

The individual contribution to team dynamics is one of the most important aspects within an organisational environment. Provided these are properly coordinated, this leads to great success. However, teams often struggle to perform due to a myriad of factors. As a senior leader or team member, what can you do to create an environment of high-performing and profitable teams?

Product

- Profiting Teams

Cost per unit

Request via Human Insight

<https://human-insight.com/strategic-solutions/>

Mission-Driven Priorities

Product description

Jim Collins and Jerry Porras coined the term Big Hairy Audacious Goal. Something that organisations and the people who run the business want to achieve. That's easier said than done. Working out the strategy and mission of an organisation can be accomplished quite easily but it is the executive part that is tricky. That is why Human Insight developed a practical approach to execute the strategy faster. Something we call Mission-Driven Priorities.

Product

- Mission-Driven Priorities

Cost per unit

In agreement

<https://human-insight.com/strategic-solutions/>

Diversity and Inclusion

Product description

How do you integrate diversity and inclusion within your organisation in a practical way? The benefits of diversity and inclusion lie in cultural diversity, social inclusion and interaction between colleagues. It encompasses more than just cultural awareness programs, workforce statistics, and corporate policies. More specifically, diverse organisations perform better based on measures such as performance and innovation, and organisations that are more heterogeneous in terms of employee backgrounds perform better as well.

Product

- Diversity and Inclusion

Cost per unit

In agreement

Request via Human Insight

<https://human-insight.com/strategic-solutions/>

Psychological Safety

Product description

The benefits of psychological safety are linked to overall team performance and organisational development. However, for management teams or budget holders it can be difficult to quantify; what is the return on investment in absolute terms when working on a subject that is difficult to grasp? To answer this question, Human Insight developed a quantitative and practical approach to work with psychological safety.

Business games

Human Insight offers many business games which let you become acquainted with our tools in an interactive way and which will provide insight into our tools. For a custom business game, please contact us or fill out the questionnaire on our website.

<https://human-insight.com/business-games/>

Leadership Game

Product description

In the leadership game, the aspiring manager will have to deal with several difficult work situations that managers often have to deal with. These situations are based on expert interviews with several international companies.

The choices the player makes during the game shape the player's leadership style. In addition, the game provides insight into how the leadership intentions of the player and his or her actual behaviour can collide and how this can be improved, both with short-term goals and long-term goals in mind.

Product

- Per game

Cost per unit

375,00

Request via Human Insight Academy

<https://human-insight-academy.com/p/leadership-game>

Leadership Challenge Game

Product description

The leadership challenge uses a gamified approach to measure behavioural preferences and styles in leadership. This game guides the player through complex dilemmas leaders may face, balancing results and group dynamics. The collected data builds up to a report reflecting the preferred leadership style of the player. Together with a coach, the player reflects on his or her areas for growth and development. They will also be provided with practical tips and tricks.

Product

- Per game

Cost per unit

750,00

Team Performance

Product description

In this training, we will tackle the issue of team members not getting along because they don't know or understand each other's perspectives. We will also give you insights into how to handle this as a supervisor. With the AEM-Cube assessment we identify who you are as a supervisor and team member, what your natural contribution is to growth and transition and what kind of challenges still lie ahead.

Leading a Team

Product description

In this training, we will give you insight into your personal drive and motivators as a leader. This training will help you improve your leadership skills for better performance by providing you with a better view of your natural contribution and of the way you interact with your direct environment.

Managing Complexity

Product description

During this training, we will teach you what the life cycle of an organisation is and how you can recognise where in the life cycle your company currently is. Also, you will learn how you can protect your organisation with this knowledge against the next complexity, and how you can manage all of this as a supervisor.
