

## How To Get Maximum Value From The Research Platform

### Step 1 - Housekeeping: Allow for all emails!

Whenever I update something, I send an email. Therefore, when you join, you just need to go to your profile in the upper right corner and click on edit profile. There is also a contact form for questions, or you can also use my email (feel free to send emails :-)):

**investwithsven@gmail.com**

Allow for all emails:

When you click on 'Edit Profile', check the box: "Yes, Sven Carlin Research Platform can email me with promotions and news"

Don't worry, I won't send you any promotions or other, this is just necessary to comply to all email rules and to make sure you get the weekly platform email updates, especially if you are from Europe due to GDPR rules.

#### Notifications

<input type="checkbox"/>	Email me when someone responds to my comments.
<input type="checkbox"/>	Email me when someone comments on a discussion I've commented in.
<input checked="" type="checkbox"/>	Yes, Sven Carlin Research Platform can email me with promotions and news. (optional)

With that done, you'll be getting an email on average once a week with updates on what is new on the platform. Every time I make a transaction or update something, I send an email.

Let's go to investing.

## Step 2 - Investing

The platform is structured so that the most important things are all in the top:

SVEN CARLIN RESEARCH PLATFORM 2.0	
1	How To Use The Platform, How It Works - Quick Overview
1	4 STRONG & 7 GOOD BUYS, PLATFORM SUMMARY, PORTFOLIOS, STRATEGY & QUADRANT Updated 24 September 2024
2	DIVERSIFIED RESEARCH PLATFORM PORTFOLIO - Updated 18 September 2024
3	SVEN CARLIN INVESTING - OPPORTUNISTIC VALUE INVESTING - Updated 9 September 2024
4	MODEL PORTFOLIO RESEARCH PLATFORM with MONTHLY ADDITIONS - Updated 2 September 2024
5	50% Per Year Investing Strategy - 4 OPPORTUNITIES NOW!!! Updated 6 May 2024
6	Detailed Copper Investment Thesis And Value Investment Strategic Approach To The Sector - October 2022 - Update 31 Aug 2023
	Ahold Delhaize - Updated 4 March 2024
	Alibaba Investment Thesis - Risk & Reward - Updated on 15 Aug 2024
	Amsterdam Commodities AMS: ACOMO Updated 2 August 2024
	Associated British Foods LON: ABF - 26 June 2023
	Berkshire Hathaway - What Matters - Updated 4 March 2024

You are now on the 'How To Use the Platform'. and just below this you have:

**1 - STRONG, GOOD BUYS, PLATFORM SUMMARY, PORTFOLIOS, STRATEGY & QUADRANT** - I update this monthly and discuss the risk and reward of my ideas - this is the document that summarizes the whole research platform.

There is an introduction to the positions with a direct link to the deeper analysis and coverage over time. The analyses of the covered stocks are all below the first threads that I am discussing now here.

Additionally, there is a short discussion on strategy, THE VALUE INVESTING QUADRANT which is a visual representation of the risk and reward of the covered stocks, and the portfolio summaries.

**2 - DIVERSIFIED RESEARCH PLATFORM PORTFOLIO** - as many requested a more diversified portfolio, this one shows how would I manage a portfolio of 20 positions. I buy a full position where I have the highest conviction (5 to 6% of the portfolio), a mid-position is for those businesses that offer already a good return but there is some risk (3% of portfolio) and a small position is for things I just want to follow for now and increase if there are better opportunities.

**3 - Sven Carlin Investing** - This is my personal money where I show every transaction that I make. My goals are personal, so there is no special strategy, but whenever I do something, I also explain why I do so. I try to invest monthly and make one purchase a month.

**4 - The Model Portfolio - Monthly Buys-** I've started this portfolio when launching the platform in 2018 and this represents my view on how a portfolio looking for global value investment opportunities could look like. The portfolio was launched with 5,000 EUR in 2018 and 250 EUR are added each month where I make a transaction each month showing what are my best ideas and how I position them in this portfolio.

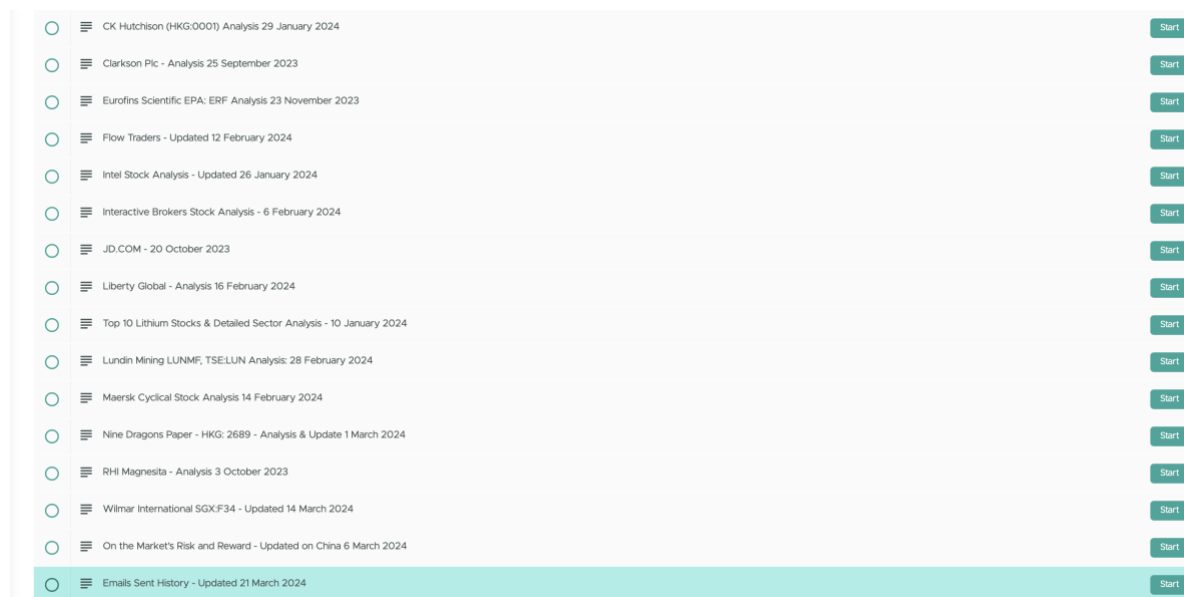

The above is the application and the strategy from the below which is research. Don't get overwhelmed because I put all the research done on the platform, as said, all that matters in my eyes is in the top.

**5 - 50% Per Year Investing Strategy** - I believe that in life you get what you focus on! Therefore, here I have put my views on whether a position can give a 50% per year return or a 100% in two years, or more. This is a great exercise to improve the risk and reward perspective on any covered stock and could also be the only focus for some.

**6 - Copper** - This is already the first covered stock/sector. Where I follow copper. All things below in this chapter are covered stocks.

### EMAILS SENT:

If you wish to catch up on the process, you can check the last emails I have sent in the email history, it also shows what to expect going forward. (bottom of first chapter)

Below the first chapter discussed here, there are hundreds of research reports but those are mostly there for reference and to show the work that has been done to select the covered stocks. I also might come back to the old research if there are some new interesting developments. You might scroll to see if there is something of interest to you, if you have time.

That is about it, any questions, related or not related to the platform, just ship me an email, ask in the comment section below the reports or contact me through the platform contact form:
