[Verse]

Street lights along the highway, throwin' shadows through the dark

Em G D Cadd9

And the memories keep on turnin', to the rhythm of a broken heart

You only need a roof when it's raining... you only need a fire when it's cold

Em G D Cadd9

You only need a drink when the whiskey... is the only thing that you have left to hold

Em G D Cadd9

Sun comes up and goes back down... the fallin' feels like flyin' 'till you hit the ground

Em G D Em G D Cadd9

Say the word and I'll be there for you... baby I will be your parachute

Em G D Cadd9
