Delete Your Online Identity

Discover Your Footprint

- ☐ Find all verification emails to track your accounts
- ☐ Browse Google's MyActivity page & other account data
- ☐ Search for your email(s) through search engines
- ☐ Search for all personal details through search engines
- ☐ Check Have I Been Pwned for data breaches
- ☐ Check people-searching websites for your information
- ☐ Reflect on your findings and what to keep/delete

Cleaning Your Footprint

- ☐ Falsify and/or delete accounts you no longer need
- ☐ Note all services without a deletion process
- ☐ Pause Google activity tracking OR delete Google altogether
- ☐ Delete social media, or follow social media rules:
  - Don't use your full name
  - Make accounts private
  - Enable all privacy settings
  - Minimize data you optionally give
  - Hide face from public profile pictures
  - Go on a friend/follower page
- ☐ For accounts you decide to keep:
  - Utilize all privacy settings
  - Implement strong security practices
  - Remove as much personal data as possible
  - Move as much data to local storage as you can
  - Move to safer alternatives when possible

Breach Recovery

- ☐ Change password of affected accounts
- ☐ Change password of unaffected accounts using the same password
- ☐ Optional: Shut down affected accounts altogether
- ☐ Optional: Switch all accounts to a new unaffected email
- ☐ Remove your personal information yourself if able to
- ☐ Contact site admins to remove your information if needed
- ☐ Remove information from people-searching sites
