

interior fit-out

QS PRACTICE

Introduction

- Introduction about interior fit out Qs Practice
- Who can learn this course?
- Interior fit out Qs Practice job market analysis
- Benefits of this programme

General Preliminaries

- ⚡ Detail explanation about preliminaries
- ⚡ Preliminaries quantity take off analysis
- ⚡ Measurement sheet preparation & BOQ preparation

Authorities Approval

Authorities Approval

General discussion about the authority's approval

- ☐ Building Permit
- ☐ Civil Defense Approval
- ☐ Municipality Approval
- ☐ Health and Safety
- ☐ Drawing Approvals
- ☐ Utility Connection Approvals

Fit Out Works

The image shows a contemporary restaurant or cafe interior. The space is characterized by a warm, natural aesthetic with extensive use of wood. The ceiling is made of horizontal wooden slats, and several large, woven wicker pendant lights hang from it. The walls are also clad in wood, with a large blue-tinted glass panel on the left. In the background, a menu board is visible. The seating area consists of square wooden tables paired with wicker chairs. Some tables are set with fruit and glassware. A large floor-to-ceiling window on the right side of the image provides a view of a coastal city and the ocean. The overall atmosphere is bright and airy.

1

Signage Work

- In-depth explanation of external Signage work
- In-depth explanation of internal signage work

Detail explanation of quantity takeoff, measurement sheet & BOQ preparation of wall finishes

2

Equipment & Furniture

- Detail understanding about Equipment & furniture
- In-depth exploration of the quantity takeoff, measurement sheet compilation, and BOQ preparation

3

Ceiling Work

- In-depth analysis of the materials chosen for the execution of Ceiling Works
- Detail explanation of quantity takeoff, measurement sheet & BOQ preparation of Ceiling works

Joinery Work

- Fit out wood works explanation
- Detailed breakdown of the methodology for quantity takeoff, measurement sheet development, and BOQ preparation

5 Flooring Work

Detail explanation of quantity takeoff, measurement sheet & BOQ preparation for the below mentioned items

- ☐ Floor preparation Work
- ☐ Water proofing
- ☐ Concrete works
- ☐ Floor Finishes.....ETC

Comprehensive breakdown of the materials employed in the execution of flooring projects

6

Partitioning / Wall Lining Work

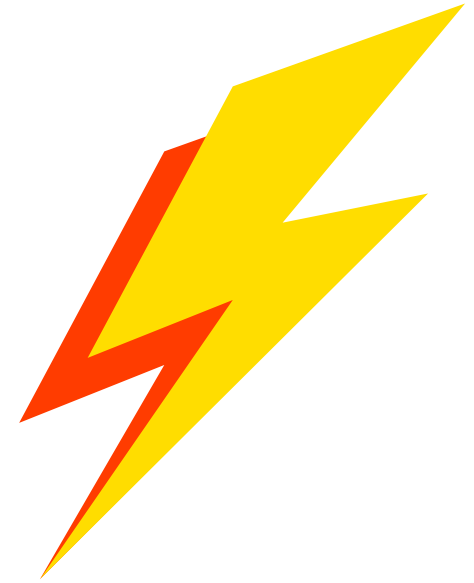

Detailed breakdown of the materials incorporated in Partitioning / Wall Lining Work

- *Gypsum board
- *Cement board
- *Insulated blockETC

Wall Finishes detail Explanation

Detail explanation of quantity takeoff, measurement sheet & BOQ preparation of Partitioning / Wall Lining Work
