ChatGPT Industry Use-Case
Cybersecurity: Funny Script
Who Invented The First Printer
Stock prediction using Linear R
"Cybersecurity Comedy Script"
Clear conversations
ChatGPT
Examples
"Explain quantum computing in simple terms" →
"Got any creative ideas for a 10 year old's birthday?" →
"How do I make an HTTP request in Javascript?" →
Capabilities
Remembers what user said earlier in the conversation
Allows user to provide follow-up corrections
Trained to decline inappropriate requests
Limitations
May occasionally generate incorrect information
May occasionally produce harmful instructions or biased content
Limited knowledge of world and events after 2021

What Is ChatGPT Prompt?

ChatGPT prompts are the questions you ask the AI chatbot developed by OpenAI.

That might sound simple enough, but crafting good questions is crucial in guiding the AI's output.

ChatGPT Prompt – Superpower

- The rise in generative AI tools like ChatGPT has created a hot market for "prompt engineers."
- "Prompt engineers" train AI chatbots to improve their responses.
- The gigs pay up to $375,000 a year and don't always require a tech degree.

A Chat Bot Developer can earn upto

₹14LPA (IND) / $130K (USA)

With the rise of AI tools like ChatGPT and Bard, the world is witnessing fresh employment possibilities. Prompt Engineering is one such emerging career choice. Recently, a San Francisco-based AI startup named Anthropic gained attention for posting a job advertisement for a Prompt Engineer and a librarian with a maximum annual salary of USD 335,000 (nearly ₹2.7 crore).

Prompt Engineering is becoming a sought-after skill, with various job-searching platforms featuring listings for prompt engineering roles. Due to its popularity, individuals have begun developing courses to educate people on the art of prompt engineering.

If My Brother Was Half My Age When I Was 8, How Old Will He Be When I Am 50?

John
(Programmer)

If your brother was half your age when you were 8, that means he was 4 years old at the time. Since you are asking how old he will be when you are 50, you can use the information that he is currently 4 years old to calculate his age at that time. If he is currently 4 years old and you will be 50 years old, he will be 46 years old when you are 50.

What Marketing Strategy Should I Use for My Restaurant Booking Application?

What Are Some Trending Keywords I Can Use for My Website and Blog to Promote My App?

plication?

There are a variety of marketing strategies that could be effective for promoting a restaurant booking app, depending on your target audience and budget. Some possible strategies include:

1. Social media marketing: Utilize platforms like Facebook, Instagram, and Twitter to reach potential customers and promote the features and benefits of your app. Use eye-catching visuals and user-generated content to showcase the app in action and build buzz.
2. Influencer marketing: Partner with popular food bloggers or social media personalities to showcase the app in action and reach a larger audience.
3. Email marketing: Use email campaigns to reach out to previous customers and promote the app, highlighting its features and benefits.
4. SEO

Blog to Promote My App?

Here are a few trending keywords that you can use to optimize your website and blog

3. "Table booking app"
4. "Restaurant reservation software"
5. "Restaurant table management"
6. "Digital restaurant reservations"
7. "Online table booking"
8. "Mobile restaurant reservations"
9. "Online restaurant booking system"
10. "Instant restaurant confirmation"

It's also important to research keywords that are specific to your app and your target audience, such as keywords related to the types of cuisine you offer, the location of your restaurants, or any unique features your app has to offer. Additionally, you should monitor the ranking of your chosen keywords and adjust your strategy accordingly in order to remain relevant and visible.

Write a Blog Post on World War 2

Can You Make It Within 200 Words and Simpler to Understand?

Content creation

...porting the necessary libraries, including pandas for loading ...nearRegression from scikit-learn for creating a linear regression ...om scikit-learn for evaluating the model's performance.

...o a pandas DataFrame, extract the feature and target ...training and test sets. We then create a LinearRegression ...ata, make predictions on the test data, and evaluate the model's performance using the mean squared error and R-squared score.

Keep in mind that this is a very simple example and you may want to consider using more complex models, more data or using time-series techniques, such as LSTM (Long short-term memory) to improve the prediction accuracy.

Write a Blog Post on World War 2

World War 2: A Look Back at the Global Conflict that Shaped the World

World War 2, also known as the Second World War, was a global conflict that lasted from 1939 to 1945. The war was fought between the Axis powers, led by Germany, Italy, and Japan, and the Allied powers, led by the United States, Great Britain, and the Soviet Union. The war resulted

gaining control of much of the continent.

World War 2 had a huge impact on the world, leading to millions of deaths, destruction of entire cities and displacement of millions of people. It also led to the rise of the United States and the Soviet Union as superpowers and the Cold War. The war also led to the development of new technology such as radar and atomic bombs. The lessons learned from World War 2 continue to shape the world today, and it is important to remember the sacrifices made by those who fought and died in the war.

ASSIGNMENT – DAY 01

Prompt 1:

Create a FULL Project Plan

Create a project plan for [your project], including tasks, deliverables, and milestones. Also, have how long it will likely take to reach each milestone

Prompt 2:

New Research

Find the latest news about [your preferred company] or [Topic] and provide a summary of the three most important events.

Prompt 3:

TranslatorGPT

Act as a live translator, when a message is typed in [language-1] translate it to [Language 2]. And when a message is typed in []Language 2], the translator it to [Language-1]. Be mindful of the slang, context, and possible cultural ambiguities when translating.

Do nothing else other than reply with the translation!

Prompt 4:

Talk With Millionaire

Hi ChatGPT, I want you to answer like [billionaire name]. Use all the knowledge of [billionaire name] and each and every available information about how [billionaire name] thinks.

My challenge is: [Your Challenge]. Now provide me a detailed 500-word answer with three action points as if you are [billionaire name].

Prompt 5:

CourseGPT

Develop a [Course Name] course for me, from basics to advanced. I need you to be my master, act as a Ph.D. professor in [Course Area], be professional, and if possible, provide long and detailed answers without losing quality.

CHEERS!

You have successfully completed this course!
