

# Homeschooling: How to Get Started

## CHECKLIST

- Set up daily self-care routine to gather your thoughts in a peaceful atmosphere, practice breathing techniques, and meditate on your day ahead.
- Find out your legal state requirements for homeschoolers.
- Start gathering your materials, research different curriculum options.
- Spend a few days exploring your child's interests, give yourself time to organize and plan.
- Create a folder for each child to gather evidence of learning and keep track of your child's educational progress.
- Start filling your homeschool planner.
- Organize your child's learning space.
- Organize storage for your homeschool equipment, materials, and resources. Come up with a material rotation system that works effectively with your homeschool setup.
- Find a local homeschool group to connect and playgroups to attend.
- Plan and enroll your child in extracurricular activities.
- Plan your daily routine, weekly and monthly outings.
