Advancing Differentiation: Thinking and Learning for the 21st Century

Dr. Richard Cash

www.nrich.consulting

nrichconsulting@msn.com

Modules will explore:

Why and how to differentiate

The layers of curriculum and creating quality essential questions

What defines a rigorous curriculum

How the brain learns and ways to motivate students

Strategies to build self-regulation

How to move students to self-directed learners

Building a thinking classroom

Digging deeper into depth and complexity

Critical reasoning strategies

Creative thinking techniques

And problem finding, solving and decision-making methods
