

C Vamp Jam Session

Welcome to the C vamp jam sessions, looking forward to jamming with you over this track!

In this jam, I solo first while you play the chords. Then, about half-way through the track we switch, and you solo while I play the chords.

Below you find chords and a scale that you can use to comp and solo. Feel free to use those devices, your own material, or a mixture of both.

The main goal for this jam is to let loose and have fun, so let your hair down and go for it!

Have fun exploring this material and I'll see you in the jam.

Chord Shapes

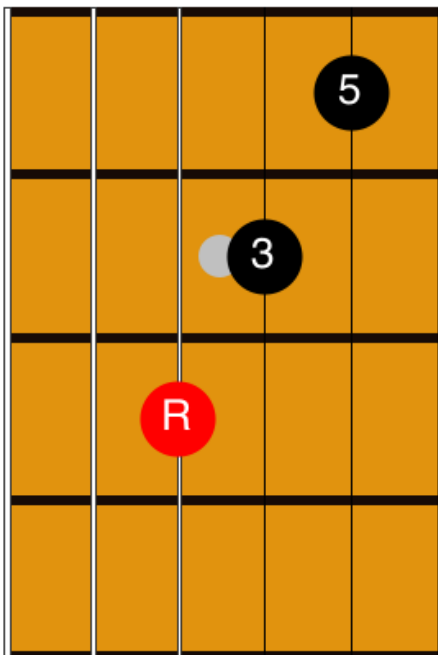

Here are chord shapes that you can use over the C vamp jam.

Check out these shapes, use them in your comping behind my solo, and mix them with other shapes you already know.

Have fun as you add these chords to your vocabulary and comp behind my solo over the jam track.

Soloing Device

Here's a scale shape that you can use to solo over the C vamp jam track.

Check out this scale, use it in your solo while I comp for you, and mix this scale with other soloing devices you already know.

Have fun as you add this scale to your vocabulary and use it to solo over the jam track.

C Major Blues
