

Diatonic 7 Chords with Left Hand

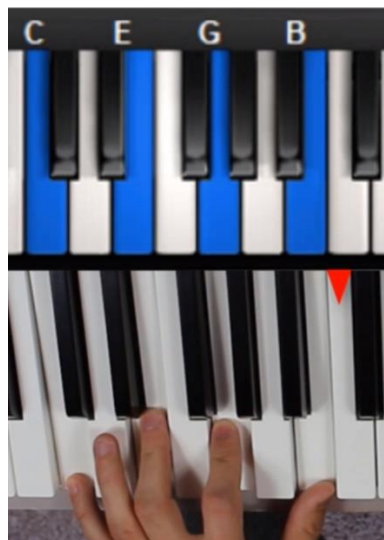

Now have a go in your left hand, using the fingers, 5th – 3rd – 2nd – and 1st. The only difference is, now you are identifying the chord with your 5th finger (pinky), as appose to the thumb when finding chords with your right hand.

For example, the Cmaj7:

Put your 5th finger on the C and then just use the same pattern of:

PLAY – SKIP – PLAY – SKIP – PLAY – SKIP – PLAY

Then all you need to do is move the shape up to the right (like you did with your right hand) to the next white key, and you will be able to play through the diatonic 7 chords in the key of C.

Have a go at playing through the chords now with your left hand.
