

No PIM Group

If a user belongs to a group where the Personal Information Management (PIM) checkbox is unchecked, then the user is treated essentially as a Community Regular User, where a number of other privileges are disabled. Unfortunately, these disabled privileges are not reflected when you view a user's UIF (User Information Form). For this reason, it is suggested that you also uncheck these privileges in the no PIM group itself so that you will be able to view a user's actual privileges.

No PIM Group Settings - Features Tab

Suggested Settings for the Features Tab of a Group named No PIM

The screenshot shows the 'No PIM : FirstClass 12 Demo Site' settings window. The 'Features' tab is selected, displaying a grid of settings for various features. The 'Group name' is 'No PIM' and the 'Organizational unit' is 'None'. The 'Require unique names within this organizational unit' checkbox is unchecked. The 'Comments' field is empty. The 'Features' tab is active, showing settings for Desktop, Collaboration, Content, Access, Messaging, Admin status, Special status, and Views. The 'Personal Information Management (PIM)' checkbox under Views is unchecked. The 'FirstClass Communities' checkbox is also unchecked. The 'Cancel' and 'OK' buttons are at the bottom right. A zoom slider is at the bottom left.
