

Design Your Life for Unlimited Success

*How to transform and create a happy,
meaningful and prosperous life,
and lasting legacy*

By Frank Candy

Introduction and Guarantee

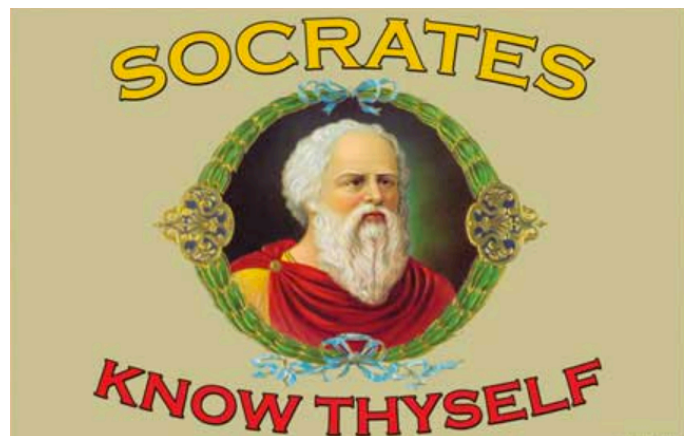

Title: Welcome to Design Your Life For Unlimited Success Course

Objective: Introduction to the transformation process from
Frank Candy and our team.

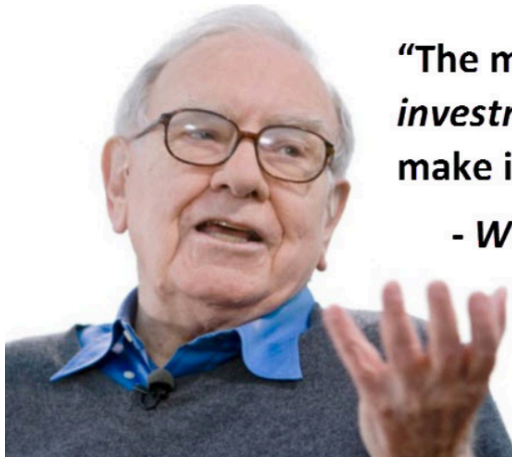

Time to read: Nine minutes

Hello, I am Frank Candy, and on behalf of our terrific team, and successful clients and students who took this course over many years, I congratulate you for taking the first step to invest in this outstanding course, *Design Your Life For Unlimited Success*.

The entire purpose in participating in this Design Your Life Course can be summed up in one statement: *To transform your life, and be happy*. This is demonstrated best by a quote from Socrates:

To know thyself is the beginning of wisdom

***"The most important
investment you can
make is in yourself."***

- Warren Buffett

This will be a process of self-discovery like you have never done.

It will transform your life, assist you to find the answers you are looking for, and inspire you on a better life path to happiness, meaningfulness, fulfillment, prosperity, peace of mind, and peace in your heart.

Through this program you're going to have the chance to do something that few people on this planet ever take the time or have the courage to do. I'm talking about planning the rest of your life!

Think about this ... for most people, "life" just kind of "happens".

Based on the events that occurred early in our lives, we made decisions that set us on the path we're on right now.

For example, I'll bet you can trace where you are in life right now back to a few basic choices you made long before you realized the impact they would have. These choices were also probably made before you had the maturity to make them!

Things like: what you chose for a college major or career training, your first real job, who you married, where you decided to live, and how you spent your spare time.

Let's be frank (no pun intended): This Design Your Life Course is a mission worthy of your time and effort. The results will astound you.

This is a process of self-discovery that includes, rethinking and reinventing your life and actually writing down the things you are passionate about, exploring and identifying your values, and thinking about what influenced these values and how they shaped you. Once you do this, you will have the proven formula for writing down your true mission statement in your life – this is priceless. It is transformational.

In this course we are going to give you the plans and details to create your own PLAYBOOK, just like a professional athlete or coach, or a CEO, or a professional manager running a big team at a company.

We will show you how to create your own storyboard, and inspire you with classic quotes, super stories, splendid strategies, and incredible ideas.

We are going to offer you our secrets, and processes for success in life and business.

We are going to show you how to establish, prioritize and plan to achieve your goals.

We are going to give you over fifteen special reports we created just for this course, some of the topics include, Focus For Success, Advanced Time Management, Money, Finance, Prosperity and the Four T's of Success.

There is a special report on Family and Friends, and why they are so important.

There is a special report on Life Balance that was inspired by our own experiences and how we cracked the code to balance and happiness.

Lesson Eighteen is, How to Create the Resume That Really Works and I guarantee after you complete the lessons in order, and when you do this lesson, and act on the recommendations, you will get more interviews.

Plus, there is a Bonus Report titled, Where The Good Jobs Are.

Lesson Nineteen is: For Entrepreneurs Only, in this lesson we turn on the bright lights and share with you the pro's and cons of entrepreneurship.

Lesson Twenty is titled: How to Master Project Management as a Valuable Life Skill. Spoilers alert . . . we just pull back the curtain to give you a glimpse and recommendations to consider if you wish to pursue this opportunity or even consider it as a profession.

Lesson Twenty-One: How to establish, select, and maintain an Advisory Board of Experts who will guide you through life.

Lesson Twenty-Two is all about Master Mind Groups, how to join one, what is expected, and even how to start one.

Lesson Twenty-Three: How to Leave a Lasting Legacy.

There is more, so strap in and get ready for the ride that will transform your life, and even re-invent you to become the person you always wanted to be.

Let's be honest: This process of self-discovery, rethinking your life and even re-inventing yourself is the best way to get going and do things that matter, so you can have happiness and prosperity.

I have spent my life touching other people's lives, by inspiring them to think harder and feel deeper, and express ourselves boldly, but most of all, to make our world a better place. Now it is your turn to transform your life into what you want it to be.

Most of the lessons have action steps at the end, and some of the lessons have a bonus report, and a few have more than one.

You can anticipate the updates every quarter, adding successful interviews with students, clients, highly successful people, and friends.

Most people finish this course at their own pace, it's not a race, you won't get a higher grade, or rewarded for speed. Take your time and do it to the best of your ability. In our experience, the ones who do it well are the ones who get the most from it.

When you put it into practice you will join a unique community of people that represent less than one percent of the people in the world who took the effort to transform their lives. Are you getting inspired?

Few more things: You will have access to this course for the rest of my life and beyond. I established a Trust to keep it going. Not to fear, I plan on being around for another thirty plus years, but I just wanted you to know that!

Lastly, I really want this to be transformational for you, that's why I am offering a 30-day conditional money-back guarantee.

On behalf of our team and myself, we want you to be completely satisfied. We want to earn your Five-Star rating.

Here is the condition: You do the work; create a PLAYBOOK, make a storyboard, complete the lists, analyze and prioritize the lists, write

out your mission statement, create your action plans, take action, create a new resume, and or start your business plan, and transform your life.

At that point if you can look me in the eye, and tell me this was not valuable to you, and you want your money back, then we will refund all your money. Fair enough?

Welcome, let's get started with Lesson Number One.

I wish you well.
