

PenTest+ vs. CEH

PenTest+ vs. CEH goal

“To push CEH out of the market and replace it, wherever it is, with PenTest+.”

1. One exam vs. two exams to assess similar skills
2. PenTest+ costs much less
3. PenTest+ is modern, broad and diverse
4. PenTest+ offers more employability

One exam vs. two exams

To assess similar skills...

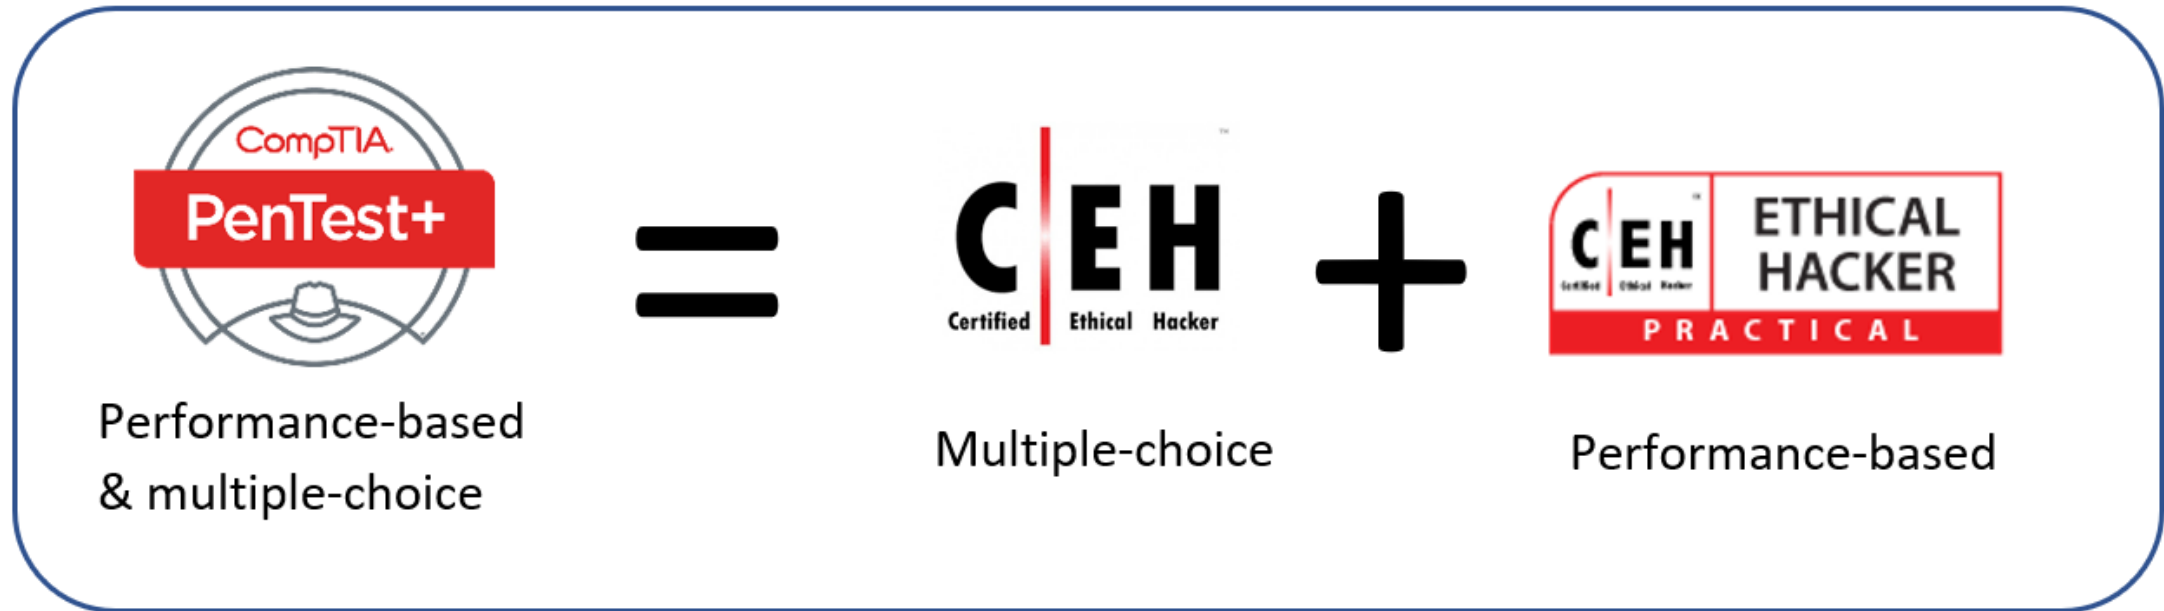

Figure 1: One exam vs. two exams to assess the same skills

PenTest+ costs much less

To assess similar skills...

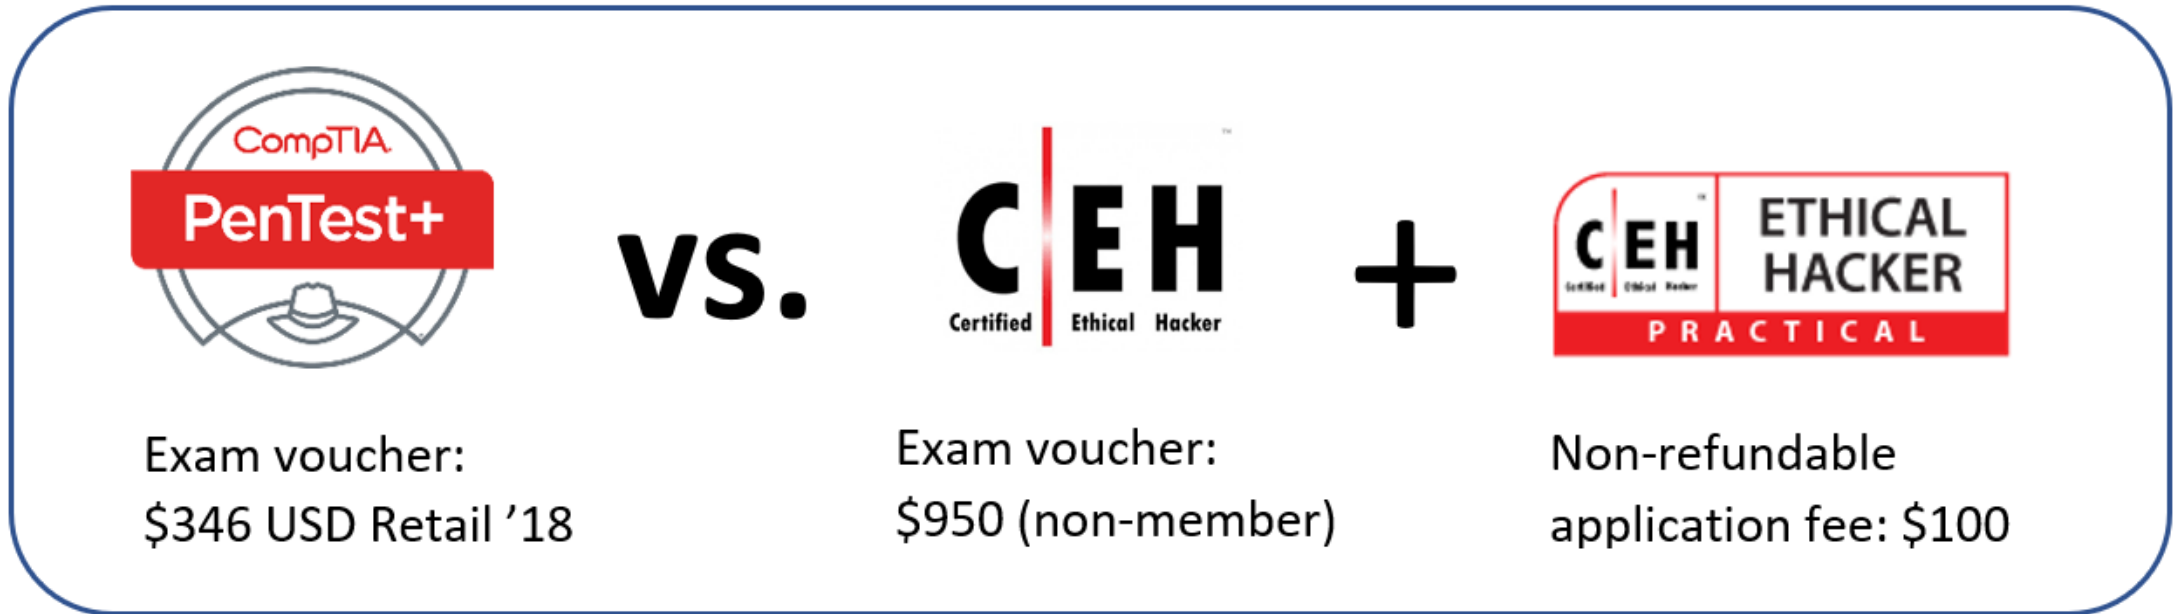

Figure 2: \$346 vs. \$1050 USD retail to assess the same skills (non-member pricing)

PenTest+ is modern, broad and diverse

Learn the latest mobile and cloud techniques

- PenTest+ includes the latest mobile and cloud penetration testing skills, including IoT, as well as traditional desktop & server systems. CEH covers only traditional desktop & server systems.
- PenTest+ better matches employer needs by covering not just technical topics, but also business processes, project flow, best practices, and professionalism in pen testing. CEH is strictly technical.

PenTest+ certification provides more employability

- PenTest+ covers vulnerability assessment and management skills. CEH does not.
- There are 3x more vulnerability assessment & management job openings in the U.S. PenTest+ covers both vulnerability and penetration testing skills. CEH does not.

Figure 3: More job roles = more employability with PenTest+

Quiz: PenTest+ vs. CEH

1. CompTIA has issued over 2 million certifications. How many certifications has EC-Council issued (the company that owns CEH)?
 - a. 2.4 million
 - b. 200,000
 - c. 1.2 million
 - d. 800,000

Quiz: PenTest+ vs. CEH (cont'd)

2. CompTIA recommends Network+ and Security+, or equivalent knowledge, before taking PenTest+. There are no required prerequisites for PenTest+. What prerequisites does CEH require?
- a. CEH requires two years employer-verified IT employment in cybersecurity; and purchasing the official EC-Council CEH training, or completing an eligibility form for approval
 - b. CEH requires five years employer-verified IT employment in cybersecurity and official CEH training
 - c. CEH does not have required prerequisites, only recommendations
 - d. None of the above

PenTest+ next steps
