

TWO

MAKING YOUR CONSCIOUSNESS WORK: THE HUMAN BLOCKS WITH THE DIVINE

So far, human beings got damaged and disturbed through their own funny blocks. Jesus' greatness – today I'm describing Jesus' greatness here in this chapter. He's purely a man of true love with a forgiving nature.

From your Swami's talking with hundreds and thousands of students about their personal experiences, so far what I've seen, what I've noticed, every person is carrying a few devils. The majority, in my practical experience, are these blocks:

- | | |
|------------------------|----------------------------|
| 1. Anger | 7. High <i>kama</i> energy |
| 2. Anxiety | 8. Impatience |
| 3. A suspecting nature | 9. Unbelievable insecurity |
| 4. Not forgiving | 10. Unworthiness |
| 5. An unloving nature | 11. Feeling left out |
| 6. Hatred | 12. Feeling rejected |

Jesus Christ

So far, your Swami has observed these blocks in humanity. But we can't see in Jesus' life, or any holy man's life, that they're carrying these types of blocks. Why did these holy men succeed? Why haven't millions of people succeeded? It is only because of these twelve blocks.

Power automatically will come once you do certain processes. But if you aren't carrying a loving nature and are carrying these types of blocks, these are the most dangerous devils. Of course, many authors have written practically about this. I appreciate them, but also your Swami is injecting the right medicine in a beautiful way to make people come out of that. It's the right medicine for them to come out – it's soul medicine.

My dear divine souls, love is a divine weapon. If you love your dog, your cat, your wife, your husband, that attachment feeling is nothing but love. It is powerful, immortal. You need to develop that, and carry that immortalism forever and ever. Jesus developed that immortalism for the entire globe. He didn't have any of the twelve blocks, not one.

HOW TO PURIFY BLOCKS AND MAKE YOUR CONSCIOUSNESS WORK

Simple. You are human; we are human. It is natural we carry these blocks. Of course, Mother Nature will play unnecessarily in our lives. The consciousness of your awareness, the inner consciousness, will always tell you. Sometimes your consciousness is not working and you go crazy without your notice.

Go in silence for one day. Don't talk; be completely quiet. Then automatically the consciousness will start to generate. But then again you will feel you are again a little wild person with the blocks. Go for a second day, no phone calls, no communication, not talking with anybody. Just simply eat pure vegetarian food, and stay in the nature, enjoying the nature. You don't need to meditate, you don't need to chant anything, just observe the nature. Be a quiet person. The consciousness will start to generate.

It's the remedy to protect from these twelve blocks. This is my sincere advice. Consciousness is very powerful. It will create the love; it will create the silence, and it will create the violence. Jesus is, majority, a silence person. Buddha also. Shiva is also very quiet and calm. Whenever you see a Shiva picture, it is silence. Buddha, purely, he's unconditional silence.

Help ever, hurt never. If you create violence in any person's life, if you hurt anybody, it will reflect back to you. Love is a nectar and it is a kind of slow poison. With any type of love, enjoy the nectar in a beautiful way. If it gets spoiled, if the love gets broken, if it gets damaged, it's a slow poison to make your soul die. Then you're a dead animal; you're living as a dead animal with no feelings.

HOW TO CREATE LOVE

Love is nothing but trust and faith. The attachment creates the love there; you have a lot of attachments. In case you lose your great soul mate, your dear friend, your dear dog, your dear etc., etc., to cut that attachment off it's better for you to spend as much time as you can in front of a flame, a candle, anywhere, in any church, in any temple. It will help you. It's my golden statement.

REMEDY FOR KARMA AND BLOCKS

I want to give you a shortcut to practice – a mantra from the palm leaf book I showed you in the last chapter. This is for whatever funny blocks and bad karmas you have that keep running in your life and your family. Just do it. Just repeat it. It's enough:

MANTRA:

Yidu anādi

jangamūddharaṇi

raksha raksha rakshamām

యిదు అనాది

జంగమూద్ధరణి

రక్ష రక్ష రక్షమం

THE REAL SPIRITUALITY

There is a prostitute who doesn't have food in her stomach and needs to protect her baby. The mother is holding her crying baby. Even she is hungry. She has to make milk for the baby to drink. Then a guy comes with \$100. She puts the baby under the tree and she gives satisfaction to that man for \$100. That is the reality. That is the spirituality.

She needed to take care of her baby, so she needed to satisfy someone. It's not the lady's crime. She needed to take care. I'm not insulting the women's kingdom. I respect a mother's nature. I give 100 marks to the women's kingdom. I pranam to their divine love. I will come back to tell about Mary Magdalene in the third volume.
