

Tune of the Month Club

Every first Monday of the month, a standard song is released with the following sheet music content:

- Lead Sheet with accurate chord symbols
- Chord Melody
- Comping Study
- Single-Note Solo

All of the above in downloadable (printable) PDF format, with standard notation, chord symbols and TABS.

The Tune of the Month Club **also contains video instruction** to get you going with the sheet music above. Everything is played in the videos by yours truly, so you're guided at every step of the way. **You get over six videos each month.**

And finally, as the cherry on top, **all the backing tracks are provided** within the Tune of the Month Club. No need to hunt for tracks on YouTube or use Band in a Box anymore. You get accompaniments at several tempos and in different settings (for instance, with and without piano to practice chords).

In summary: the Tune of the Month Club provides you with PDFs, videos and backing track. Every month on a new song! Who could ask for anything more? :-)

Tune of the Month Schedule

Tune of the Month Pricing

\$12 per month.

With the possibility of a discounted rate for the launch. TBD.

:-)

Note that, like a paper magazine delivered to your door, you get to keep all the issues starting from the date of the subscription. So you keep access to all PDFs, videos and backing tracks for life for the months you are a member.
