Psychometrist in
Independent Practice

Ilana Bisschoff
is a registered
Industrial
Psychologist and
founder of Acumind

**Natalia
Springfield**
is an HR
Practitioner and
Psychometrist

Hilde Hay
is a registered
psychometrist,
with a
masters' degree
in Research
Psychology.

Current Challenges

Our intention for connecting

What it is

- Building community – learn and grow with each other
- Share knowledge, tips and advice
- Offer ideas

What it is NOT

- Once size fits all answers
- Replace your own instincts and training as a practitioner
- You get to decide what you are comfortable with!

Challenges vs *Possibilities.*

1. Anxiety and Uncertainties
2. Running your session smoothly
3. Being in contact with your client
4. Which platforms to use – for tests and other communication channels
5. Availability of tests
6. Technical challenges – internet connectivity, data, access to computers
7. Getting documents (e.g. consent forms) to and back from the client
8. Confidentiality and security issues

Challenges vs *Possibilities.*

9. Alternatives to online – deciding to do face to face sessions, what measures to take
10. Test environment
11. Practitioner's working environment
12. Test observation
13. Individual versus group assessments
14. Cognitive assessments
15. Boundaries

Online Assessments

Possibilities.

Important factors to consider when selecting assessments:

- Validity (accuracy) and reliability (consistency)
- Scientific background of assessment
- Must be in accordance with employment guidelines
- Assessment purpose to match usage purpose
- Adaptability for different cultures and languages

Things to do when you consider a new assessment:

- Contact the company that sells the assessment
- Ask for sample reports/opportunity to complete assessment and receive feedback
- Ask questions regarding the following: norm group and when last updated, languages, administration (online vs paper based, theoretical framework, report options, training requirements and cost)

Online Assessments

Possibilities.

Aptitude

- GRT2 (Psytech)
- DAT (MindConnect)
- Cliquidity (Magellan)

Personality

- JPQ (MindConnect)
- MBTI (JvR)
- JTI (Psytech)

Interests

- Career Preference Test (M&M Initiatives)
- Maree Career Matrix / MCM (JvR)
- Career Interest Profile (CIP) (JvR)
- OIP (Psytech)
- MB10
- SAVII (MindConnect)
- Brainwave

Values

- Value Scale (MindConnect)
- VMI (Psytech)
- Personal Values Assessment (Barrett Values Centre)

Gathering Qualitative Data
Using Google Forms / Google Sheets

- Consent form
- Intake interview form
- Careers Workbook
(include exercises related to “in flow” activities, Values, Holland’s Interest Codes (RIASEC), Multiple Intelligences and more – be creative)
- Online “Career Card Sort” interactive exercise

Candice

Pricing *Possibilities.*

- 1) Individual assessments
- 2) Group assessments
- 3) Medical Aid

Clause (c) which stated that *“Practitioners may charge a fee for services rendered through a telehealth platform”* was amended as follows:

“Although practitioners may charge fees for consultations undertaken through Telehealth platforms, the Council strongly cautions against practices that may amount to over-servicing and perverse incentives”.

Consent

Possibilities.

1. Telehealth consent is additional to normal consent
2. What to do when they cannot print and sign consent?
3. Consent forms – Purpose, Payment and Service consent, voluntary nature, confidentiality issues, access to results, cancellation policy etc.
4. Telehealth Consent – explain what Telehealth is – it's a service offered with internet technology (assessment, feedback, consultation etc.)

Consent

Possibilities.

5. Details in the Telehealth Consent – Consent for this service, right to withdraw, Telehealth treatment may be experienced differently than the face to face, but also state what you can do to ensure that the client will get the value from the session e.g. constant communication, support, etc.
6. When working with learners – ask permission for direct contact
7. Confidentiality matters – run the risk of being overheard
8. No 3rd party involvement or assistance

Consent

Possibilities.

9. Security – since it is telehealth, try your best effort to ensure high encryption and secure technology. Discuss Access to material, access to results, no links or material should be distributed
10. Your responsibility
11. Your client's responsibility

Connection

Possibilities.

Rapport: Bring emotional connection into a cognitive interaction

Basic skill Teenagers

- Learn the 'tool' to avoid discomfort
- Active verbal listening and questions increase
- Look into the little hole!
- Explain actions (e.g. making notes)
- Combine methods: e-mail, phone, video-call
- Check in often to help client keep focus

Connection

Possibilities.

- Online ideal for some
- Article – face to face considered online
- Social connection and wellbeing:
 - Presentation of self not 100%
 - Benefit of delayed responses
 - Limited non-verbal cues

Building Trust

Possibilities.

- Use initial consultation to find out what's going on in client's life
- Think of ways to relate / topics to talk about based on intake form
- Check in about their comfortability using online approach
- Use feedback as an opportunity for client to "self assess"
- A conversation, not a presentation
- Be human, smile, mirror body language
- Check for understanding
- Being adaptable
- Offer free follow up consult

Ethics

Possibilities.

On the 26th March 2020, the HPCSA published the **Guidance on the use of Telemedicine Guidelines during the COVID-19 pandemic** in terms of which, the following provisions were amended:

Clause (b) which stated that *“Telehealth is only permissible in circumstances where there is an already established practitioner-patient relationship, except where Telepsychology and/or Telepsychiatry is involved, in which case telehealth is permissible even without an established practitioner-patient relationship”* was amended as follows:

“Telehealth should preferably be practised in circumstances where there is an already established practitioner-patient relationship, and where such a relationship does not exist, practitioners may still consult using Telehealth provided such consultations are done in the best clinical interest of patients”.

Ethics

Possibilities.

Online Subject Choice & Career Guidance

Building Rapport:

Rapport is based on accessibility, empathy, trust, mutual openness and respect

- Send welcoming email the day before
- Set the tone of the assessment
- Administration of test(s) and observation
- Look out for test anxiety

Ethics

Possibilities.

Online Subject Choice & Career Guidance

Ethical Guidelines of Good Practice in the Health Professionals Booklet – Professional Code of Conduct:

- Confidentiality
- Informed Consent
- Scope of Practice
- Reliability and Validity
- Safe Keeping of Documentation/Material, etc.

Ethics

Possibilities.

Online Subject Choice & Career Guidance

Ethical & Legal Challenges:

- Level of computer literacy of client(s)
- Safe keeping of client information - confidentiality
- Instability of technological infrastructure
- Data security and risk assessment
- Test environment or conditions / Observations

Boundaries

Self Care.

Reporting

Possibilities.

- Use feedback discussion as primary form of conveying info
- Sharing your screen
- Purpose of report is for client to refer back to
- Reports do not need to be time consuming
- Use fun, eye catching diagrams and images
- Prepare report templates for different types of clients
- Always double and triple check if you are copying and pasting – rather work from a fresh template
- Supplement your email with additional useful attachments

Questions & Closure.
