Secrets of Terrific Type

Lesson 01-10: Where To Find Fonts Homework

Before we move on to the next section, it's time for another fun project!

This lesson's homework assignment will help you accomplish two things:

- #1 - You will get comfortable with some of the font websites we've covered.
- #2 - You will grow your font stash as you download 5 fonts for 5 of the Font Classifications we covered in Lesson 2.

I have created a worksheet that you can find in the downloads section. This worksheet will have a list of five suggested fonts for each of the 5 classifications along with a specific url for each one. I will be listing free, commercial use fonts only but feel free to spend some time looking for personal use fonts at dafont.com if you only use fonts for personal projects.

I hope you're excited to grow your font stash! Have fun looking around and feel free to download more fonts than the ones I suggest. Just be warned, downloading fonts can be very addicting so maybe set a time limit so you don't lose two hours of your day!
