Google Docs/Sheets/Drive expert and also know DialogFlow (API.AI)?

You should probably create a book/training course, and it looks like there is at least one customer who will buy it.

My reader Mano Chen is looking for books and other training material which can help people connect API.AI with Google Docs and other Google apps.

Please see his comment under [this blog post](#). (I use Disqus Conditional Load plugin, so the comments load asynchronously after the user scrolls to the bottom of the post).
