

STITCHING COSMOS

Master Your Sewing Machine Through a Series of Sewing Techniques, Feet, Accessories and Decorative Stitches

Accessory Overview

Take your sewing machine to new levels by adding on presser feet and accessories that use stitches in entirely new ways.

Each Stitching Cosmos lesson is designed to feature a different sewing foot or sewing accessory. Lessons will teach multiple uses for each foot giving you plenty of information to be able to incorporate them into future projects.

Visit your local sewing machine retailer with your wish list.

For best results, ALWAYS purchase genuine branded accessories for your exact machine.

If you are unsure if you want to purchase a featured presser foot or accessory, watch through the entire lesson first.
