# **An Introduction to Violet Flame Reiki**

# What is Violet Flame Reiki?

- Violet Flame Reiki is a form of healing energy that complements Usui Reiki
- Violet Flame Reiki enhances the healing experience, and facilitates connection with the Divine Feminine
- Not to be confused with “Violet Ray” Reiki, Violet Flame Reiki comes from the Goddess Kuan Yin (Quan Yin/Guan Yin)
- This is a very new system, originally founded in August of 2000

# The Violet Flame Reiki System

- The Violet Flame Reiki system was originally created by Ivy Moore, who states that she received an attunement from Kuan Yin, along with 40 sacred symbols
- Violet Flame Reiki attunements are done primarily via distance
- Once attuned, the Violet Flame becomes part of the energy that you channel; it will naturally flow harmoniously with any energy that you are already attuned to

# The Violet Flame Reiki System (cont.)

- There are 4 Levels in this system, with the Violet Flame Master Symbol being given at the 4th Level
- Attunements are done as an all-inclusive process - all 4 Levels are given to the student at once
- Typically, students are asked to have their Usui Reiki Master Teacher attunement before receiving the Violet Flame attunement

# Prerequisites: A Rationale

- The prerequisites exist for purely practical purposes
- Due to the large number of symbols in the system, it was initially recommended that students have at least their Usui Reiki Level 2 attunement so that they knew how to draw and activate symbols
- However, because all 4 Levels were given at once, meaning that the student is immediately able to attune others and teach Violet Flame Reiki after receiving their attunement, it became generally accepted that having their Usui Reiki Master Teacher certification would be in the students' best interest
- Being a Reiki Master Teacher implies a certain level of experience and competence. Being comfortable working with symbols and passing attunements will make this training much more valuable to you
