About Josh & Kerstin

Josh Goldsmith is a professional conference interpreter and the Geek-In-Chief at [techforward](#), where he has helped over 10,000 students make technology accessible and fun.

Kerstin Cable is a language learning coach with a passion for helping solo learners get results the joyful way.

Kerstin & Josh

Introduction

We know.

Language learning can feel like pulling teeth.

Especially if you're learning on your own.

But it doesn't have to be that way!

In this guide, we'll show you three of our favorite ways to inject fresh inspiration – and **FUN** – into your language learning using the **FREE** version of ChatGPT.

It's fast and easy.

So what are you waiting for?

Dive in and start boosting your languages today!

*Kenstin
& Josh*

1. Write a Story

Imagine generating stories, poems, and songs about any topic...in seconds.

With AI, you can.

STEPS

 Head over to [ChatGPT](#).

 Ask AI to generate a list of vocab, or paste in your own.

 Use the prompt below to create a story.

PROMPT

Write a [NUMBER OF WORDS]-word [TYPE OF TEXT] in [LANGUAGE] using these vocab words:

For example: "Write me a 300-word story in Russian using these vocab words."

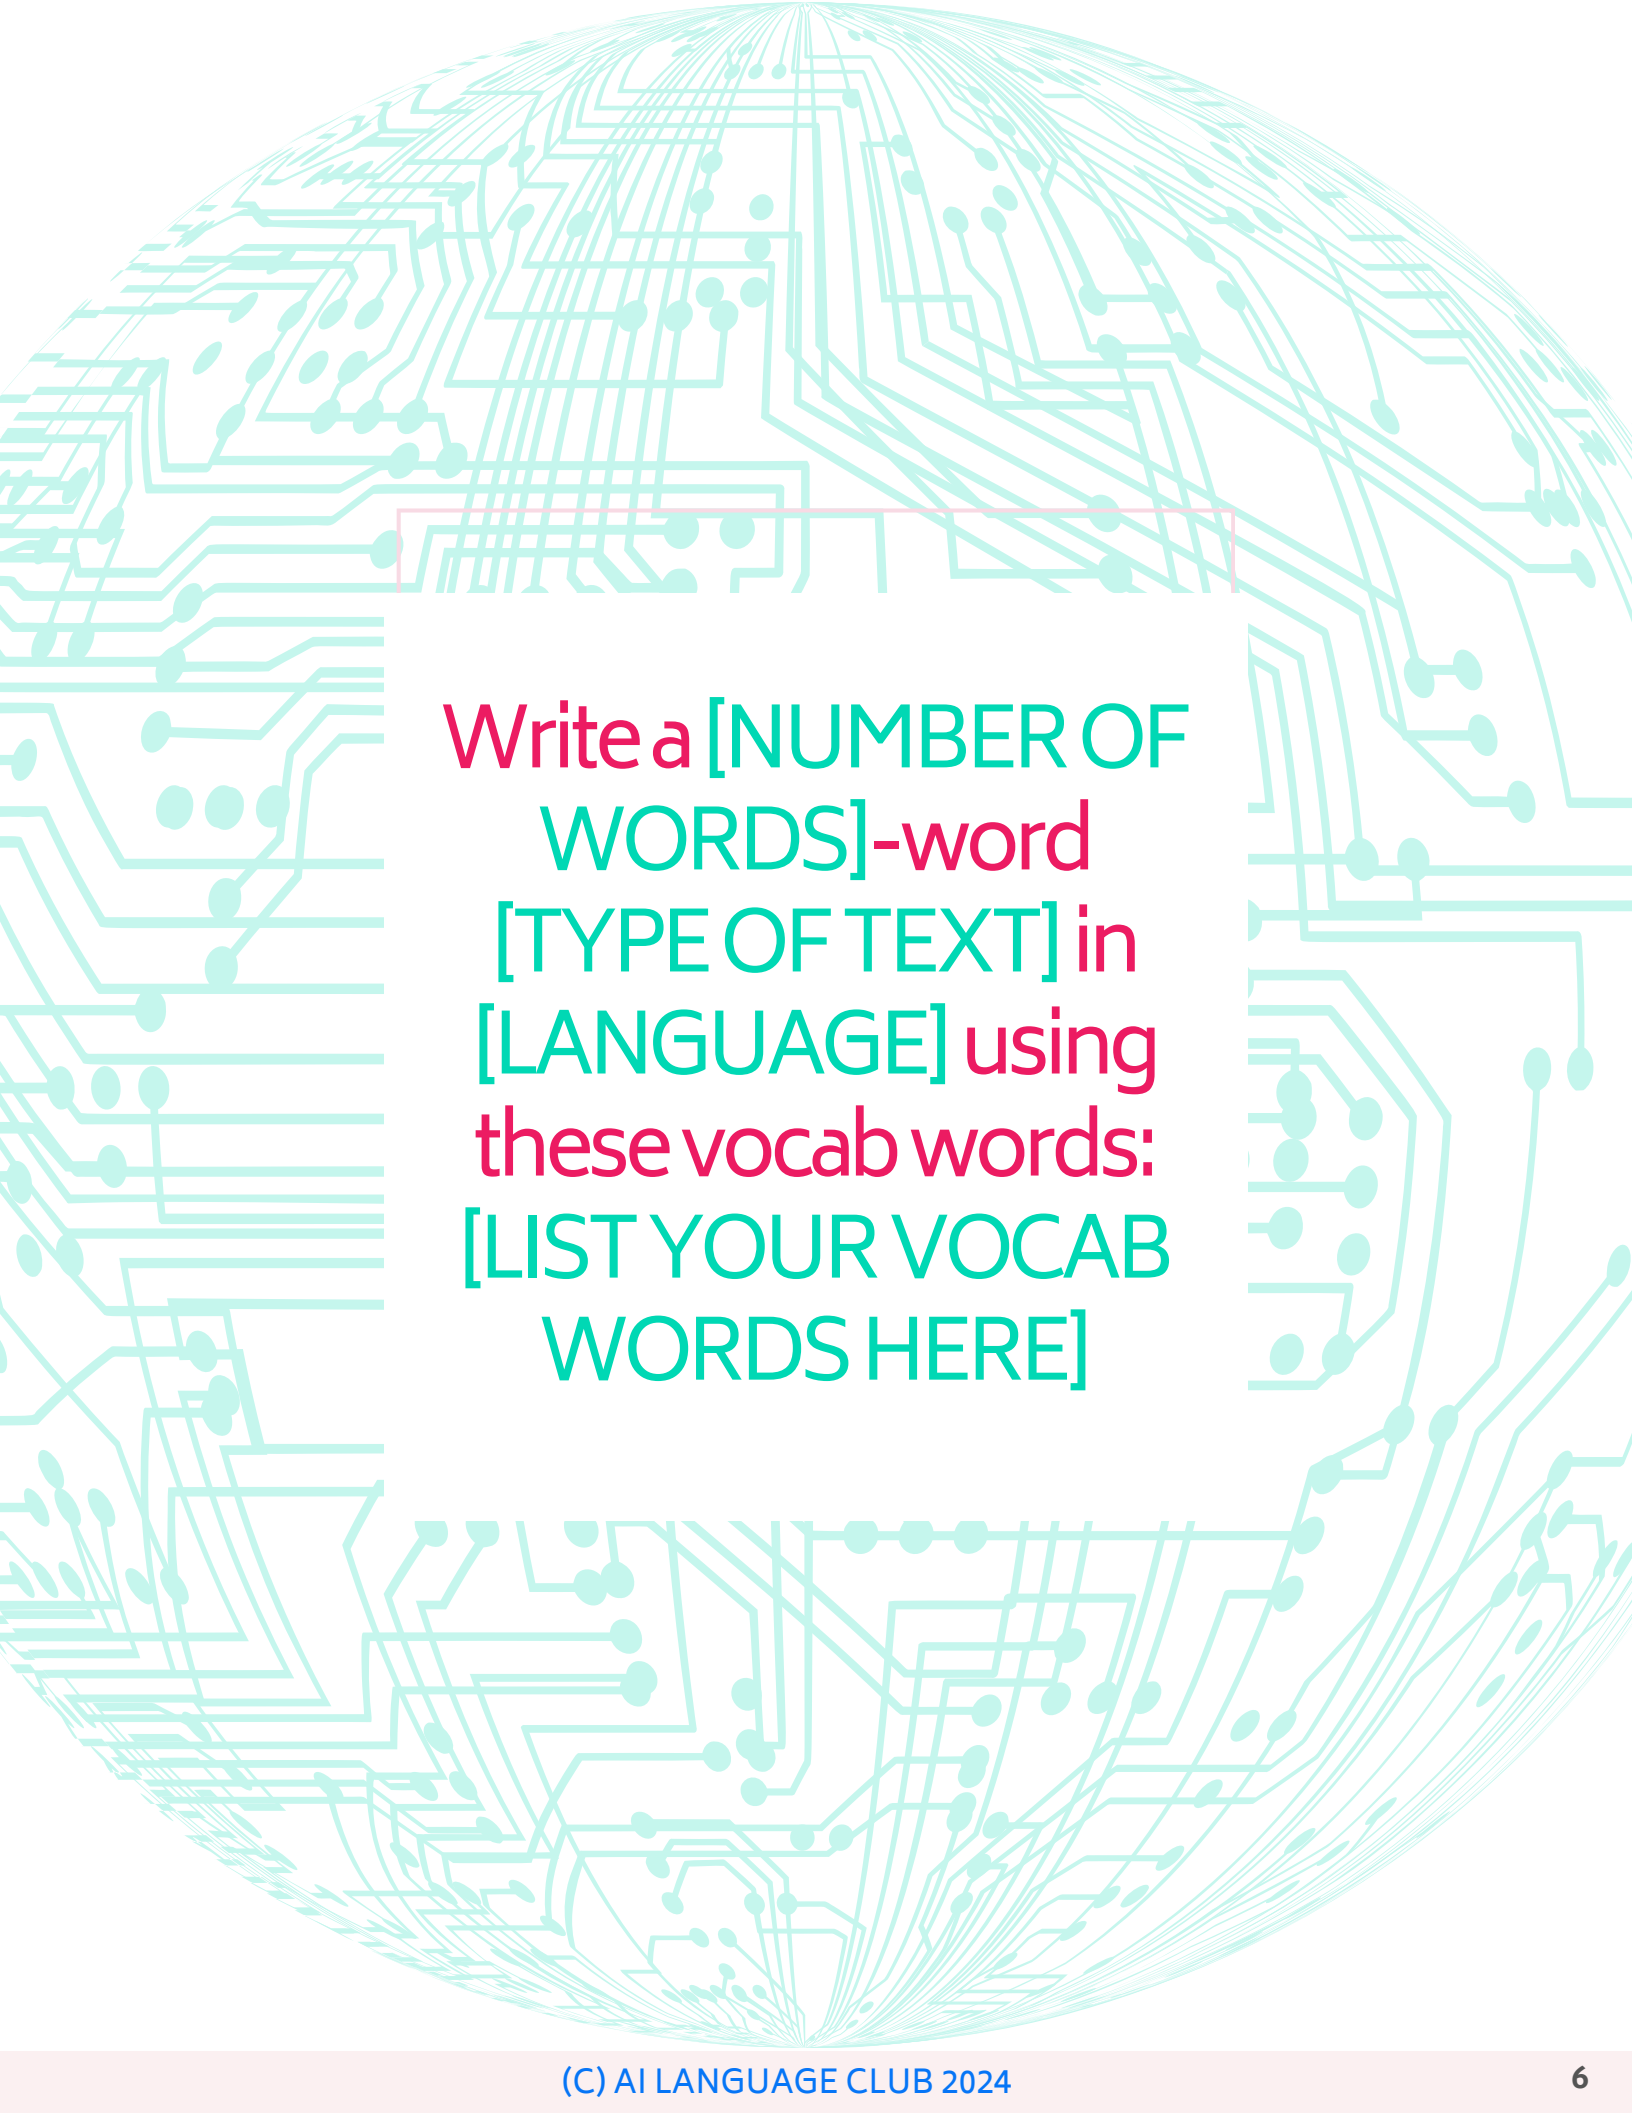

Not sure which vocab to use? Head back to the last exercise to generate some!

LOOKING FOR MORE?

Ask AI to shorten or lengthen the story, use simpler or more advanced language, add an imaginary dialogue...the sky's the limit!

Loving this? You'll find tons more creative ideas in our bite-sized tutorial [The Literary Artist](#).

[Try it out for just \\$9/month.](#)

Write a [NUMBER OF WORDS]-word [TYPE OF TEXT] in [LANGUAGE] using these vocab words: [LIST YOUR VOCAB WORDS HERE]

2. Ask AI to improve your writing

Ever had a native speaker tell you: "Well...that's technically correct, but that's not how I would say it" ... 😅

We've all been there.

The good news: Artificial Intelligence can help you learn natural ways to express your ideas!

Here's a nifty prompt that'll get [ChatGPT](#) to help you expand your vocabulary:

PROMPT

For everything I say, give me three different ways to phrase it in [LEVEL] [LANGUAGE], then ask me a follow-up question.

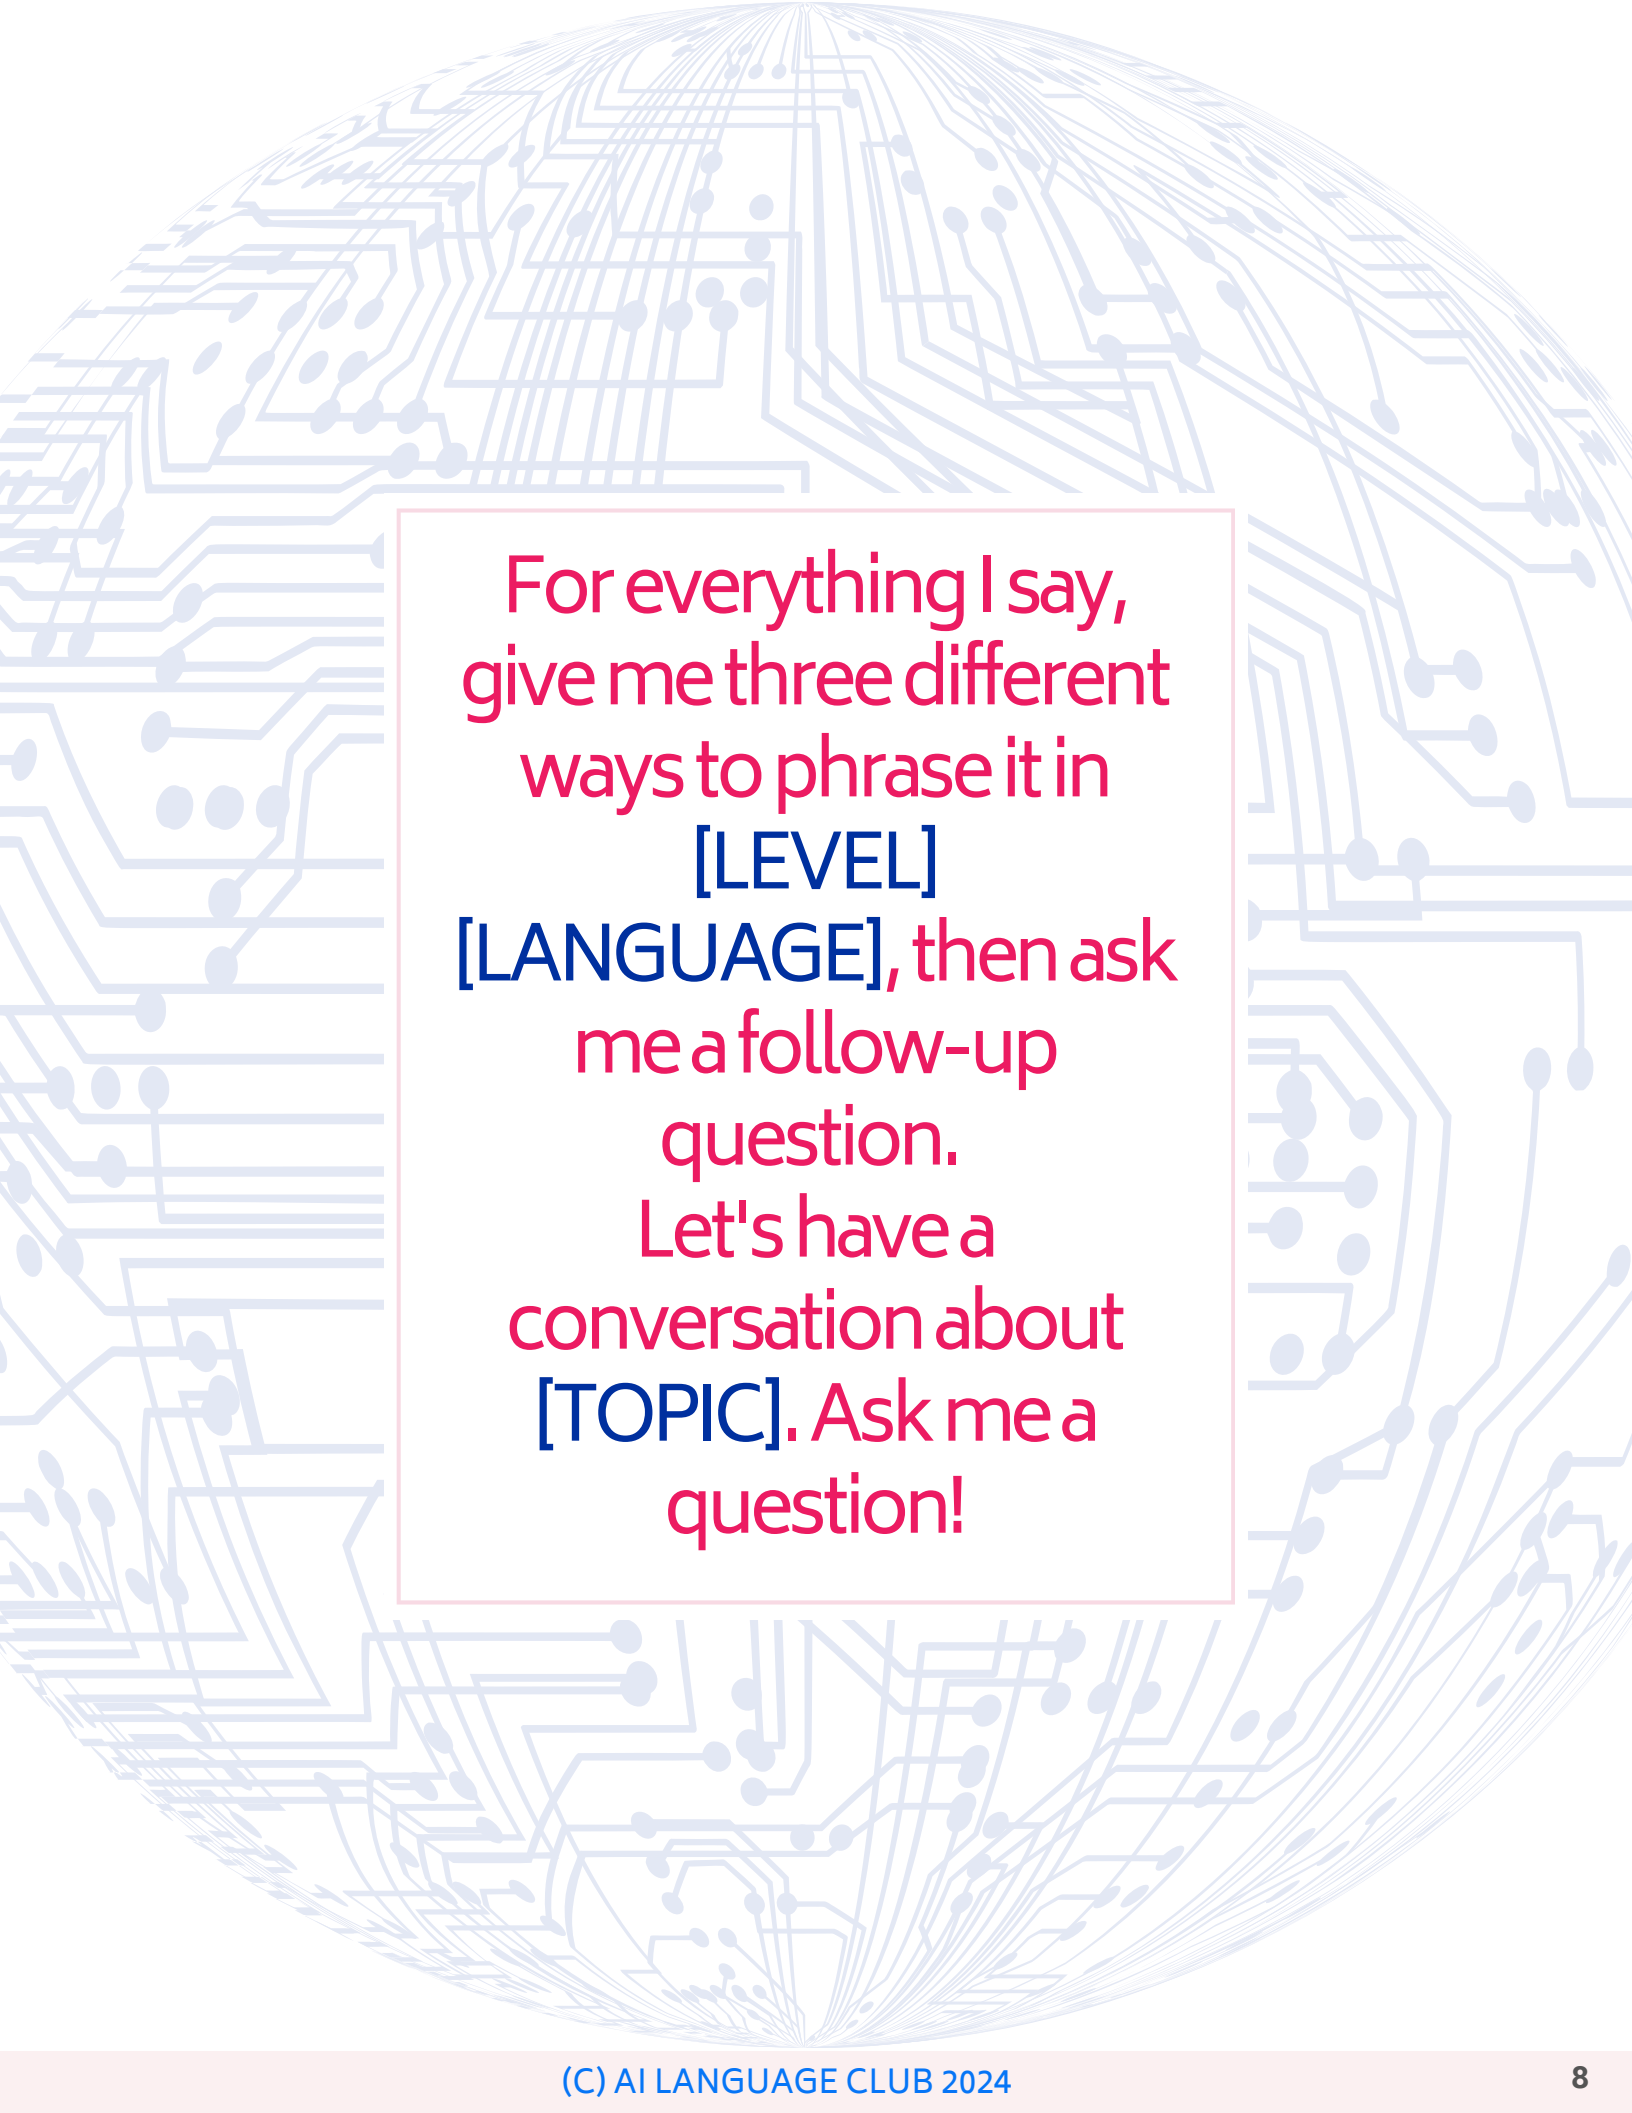

Let's have a conversation about [TOPIC]. Ask me a question!

We love this prompt, since it'll give you three natural ways to phrase something in your target language – at your level!

💡 **LOOKING FOR MORE?**

Curious about other ways to get AI to rephrase what you said? Our bite-sized tutorial [The Transformer](#) is packed with them!

[Try it out for just \\$9/month.](#)

For everything I say,
give me three different
ways to phrase it in
[LEVEL]
[LANGUAGE], then ask
me a follow-up
question.
Let's have a
conversation about
[TOPIC]. Ask me a
question!

3. Play games with ChatGPT

Remember how you learned your first language?

If you're like many learners who find it was missing a good dose of fun and play, now's the time to try something new!

Because when you play, you learn. And AI makes it easy to learn while having fun.

You don't need to put a ton of pressure on yourself to "succeed" or "learn something new" every time.

Because AI isn't going to judge you. So why not start playing with AI today?

One easy option: Play 20 questions using this prompt>

P R O M P T

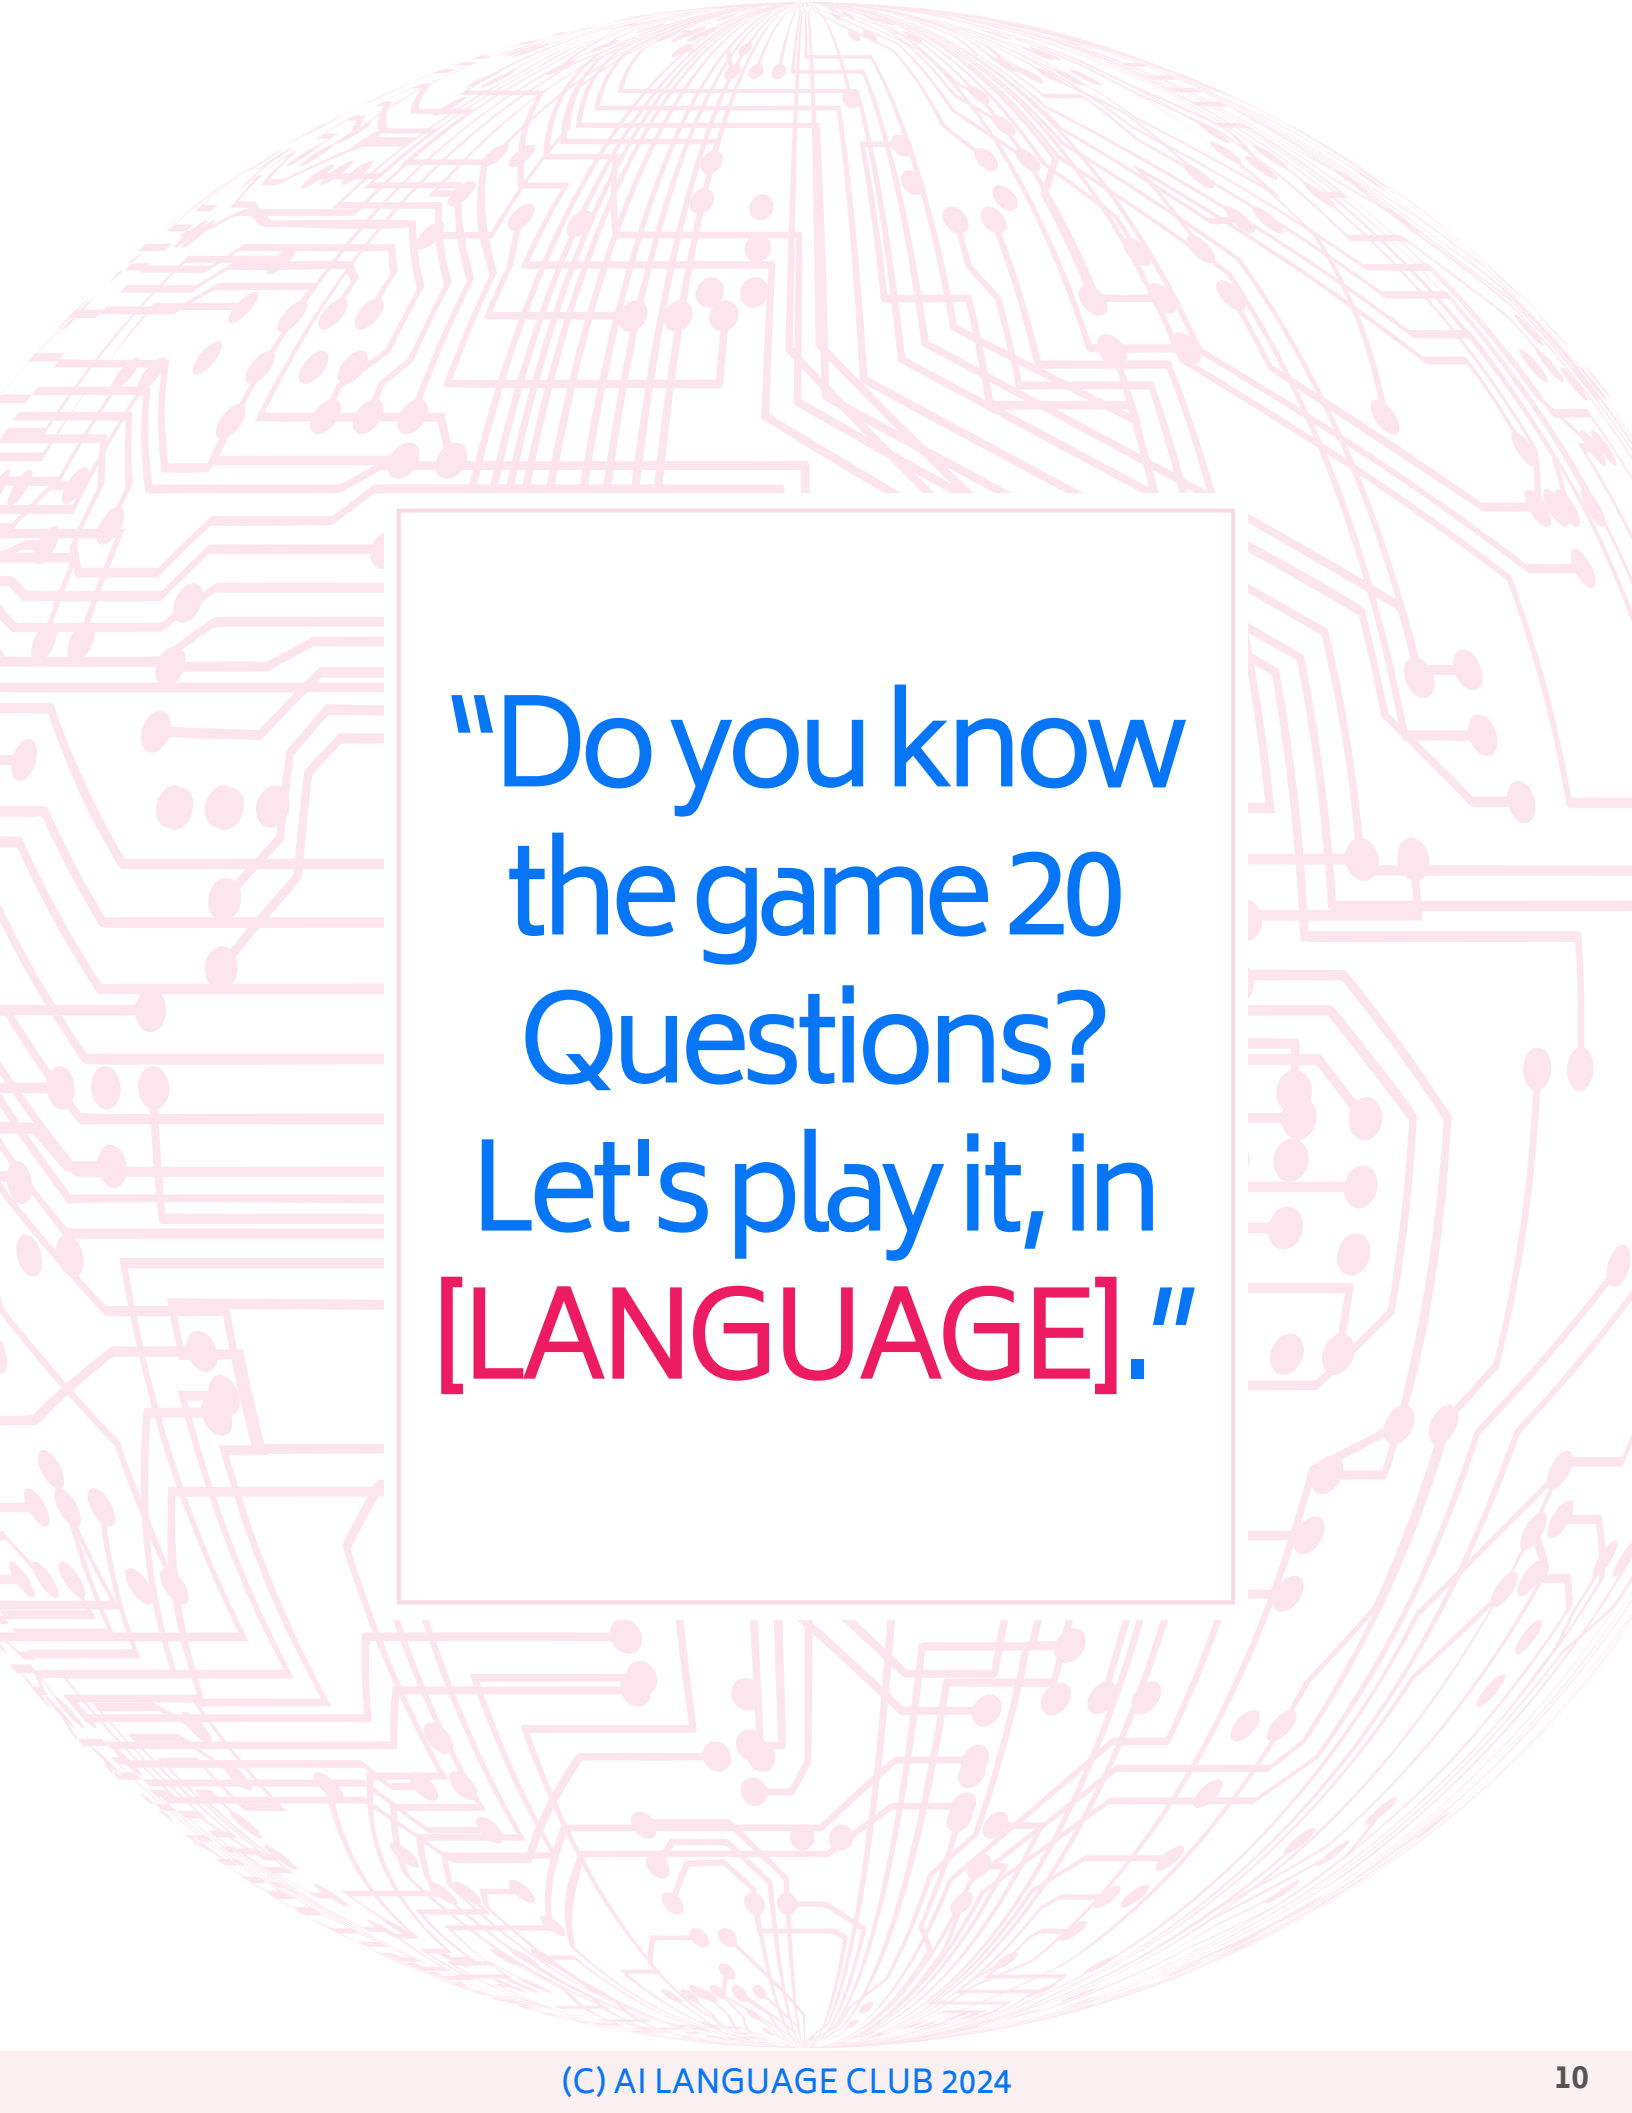

"Do you know the game 20 Questions? Let's play it, in [LANGUAGE]."

💡 By default, ChatGPT usually lets you think of something while it guesses. If you want to do the opposite, just tell it to switch roles!

💡 You can even specify the type of vocabulary you'd like to practice. For example: "Think of an item found in the kitchen, and I will guess it!"

This tip comes from our 20 Questions tutorial. Like it? We shared tons of other ways to play with AI in your target language in the Club!

[Try it out for just \\$9/month.](#)

“Do you know
the game 20
Questions?
Let's play it, in
[LANGUAGE].”

Next Steps

Love what you're seeing here?

We've got dozens more tutorials to help you use AI to create perfectly-tailored trainings and materials that fit your learning style!

So if you're...

😞 Bored by textbooks and repetitive exercises for learning a new language?

😲 Ready for language learning resources for your exact level and interests?

[Join AI Language Club!](#)

Our toolkit combines fresh inspiration, innovative study materials, live practice sessions and bite-sized tutorials to put the FUN back in language learning.

Did we mention it's **just \$9/month**?

We can't wait to see you in the Club!
