

Training Cycles

Florais da Amazônia System- FAS

January 2021

Training Cycles Florais da Amazônia System

1. BASIC CYCLE

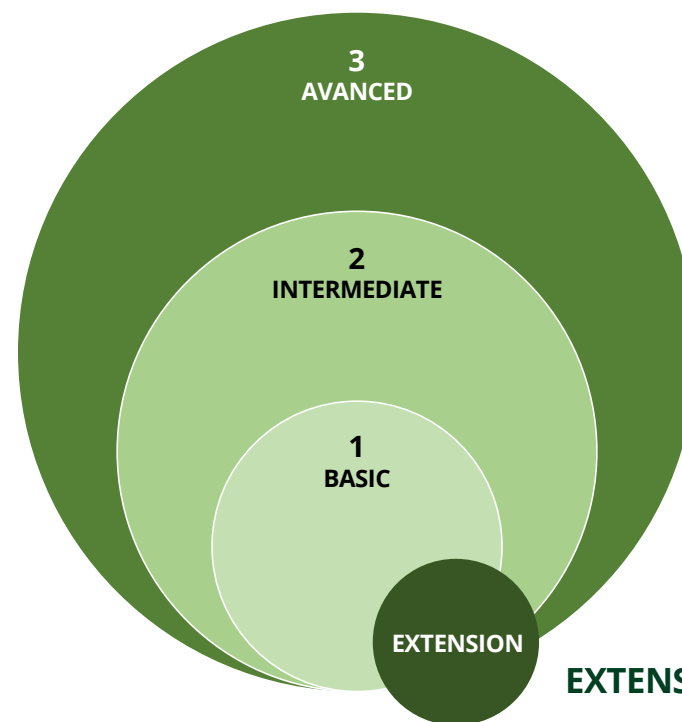

Introduction to the Florais da Amazônia System.

2. INTERMEDIATE

Introduction to the Florais da Amazônia System.

3. ADVANCED CYCLE

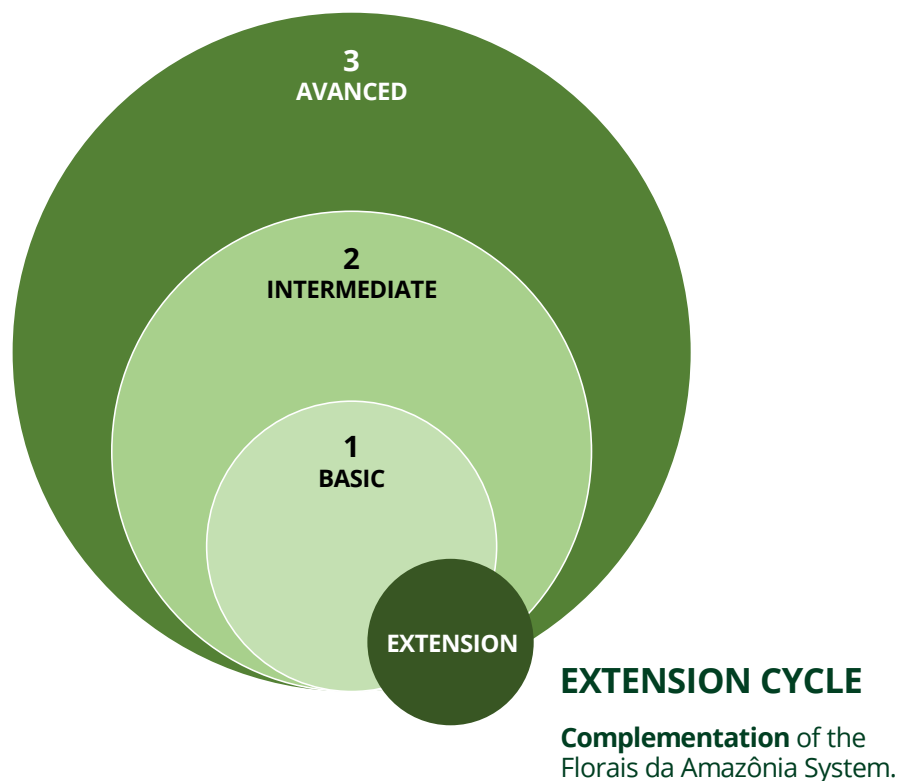

Certification in the Florais da Amazônia System.

EXTENSION CYCLE

Complementation of the Florais da Amazônia System.

Training Cycles Florais da Amazônia System

Basic cycle 1 is intended to present the Florais da Amazônia System based on the two basic classifications, focusing on nature's health patterns.

Intermediate cycle 2 is divided into two categories:

- Presentation, which focuses on the interaction between the different classifications and understanding the dynamics of the system.
- Deepening, focusing on the therapeutic approach of the System; study of the therapeutic process that is triggered in each individual, from the interaction of fields of consciousness that occurs with the use of the floral.

Cycle 3 Advanced is intended entirely for and certification of multipliers and therapists, from the previous cycles and includes several specific experiences and activities.

The Extension cycle includes extra courses and experiences, with expansion of the content of the classification in the order of nature and application of the repertoire of the introductory cycle 01.

Following you will learn about each of the courses and their respective cycles, categories and prerequisites.

1 1 BASIC CYCLE

Courses that are part of the introduction to the System.

	Time spent	Prerequisites
① Classification in the Order of Nature - Introductory It presents the fundamentals of the Florais da Amazônia System, from the first basic classification, which focuses on the study of flowers according to its position in nature and its health standards, as a mirroring of the internal levels of being.	🕒 16h	✅ - Prerequisites: none
① Elementotherapy - Introductory It presents the fundamentals of the Florais da Amazônia System, based on the classification of flowers based on the four planetary elements, focusing on their attributes and interactions, as an expression of the natural order and reference of health standards.	🕒 16h	✅ - Prerequisites: Classification in the Order of Nature - Introductory

2 INTERMEDIATE CYCLE PRESENTATION

It focuses on the interaction between the various classifications. It works to understand the dynamics of the system.

	Time spent	Prerequisites
i The Cycles of Life The course aims to exercise the fundamentals that support the formulations of flower essences, from the study of a set of compounds that address each of the seven cycles, which we identified as more generic in the life of each individual (pregnancy, childbirth, childhood, adolescence, adult age, elderly, rebirth).	🕒 16h	✅ - Prerequisites: Basic cycle
i Balance of Inner Patterns The course focuses on the study of seven formulas directed to the different languages or set of codes that make up the internal dynamics of being (Emotional balance, Mental balance, Mediunistic balance, Communion, Meditation, Protection, Purification). The formulas favor the harmony between these diverse languages, and their intrinsic balance, and contribute to sustain the harmonic structure.	🕒 16h	✅ - Prerequisites: Basic cycle
i The Seven Points of Force The course focuses on the study of the nature of the seven main chakras that make up the energetic alignment of the human being, and the action of the Florais da Amazônia on them.	🕒 16h	✅ - Prerequisites: Basic cycle
i Immersions in the forest Immersions in the cradle of flowers go beyond the intellectual learning of concepts and theory; they provide the experience and attunement with the forest, and explore personal experience with the research fundamentals of Florais da Amazônia. At this level, immersions will address the themes of previous courses.	🕒 30h	✅ - Prerequisites: Basic cycle

Pode-se realizar sem sequência fixa.

2 INTERMEDIATE CYCLE THERAPEUTIC

Directs the focus to the therapeutic approach of the System, from the deepening of the study of the interaction of fields of consciousness.

① Therapeutic Processes

The course proposes a study on how the process of interaction of fields of consciousness between kingdoms turns into a therapeutic process, and how the guiding thread of this phenomenon is the basis of the system's therapy.

Time spent

🕒 16h

Prerequisites

✓ Prerequisites:
- Basic cycle
- Intermediate cycle/Presentation

① Alignment Patterns

The course focuses on aspects of the complexity of human experience, through the analysis of specific frameworks. Thus, it presents the indication and justification of formulas that act as a therapeutic approach tool, which, point out healthy patterns of behavior, aimed at preventing situations of discomfort and imbalance and that favor the alignment of the individual for the manifestation of their full health.

🕒 16h

✓ Prerequisites:
- Basic cycle
- Intermediate cycle/Presentation
- Therapeutic Process course

① The Archetypes of Nature

The course presents the concept of nature's archetypes, as a way to decode the expression of the plant and intermediate kingdoms. And, from that, identify how this expression becomes a therapeutic tool in mirroring the deep and archetypal aspect of human nature, through the study of the orixás' formulas.

🕒 16h

✓ Prerequisites:
- Basic cycle
- Intermediate cycle /Presentation
- Therapeutic Processes course
- Alignment Patterns course

① Immersions in the forest

Here the immersions bring the themes "The Archetypes of Nature ", and "Therapeutic Self-Knowledge and Empathy", which deepen the experiential aspect in tune with the forest, exploring personal experience with the research's therapeutic foundations.

🕒 30h

✓ Prerequisites:
- Basic cycle
- Intermediate cycle/presentation
- Intermediate cycle/ therapeutic

Deve-se realizar uma sequência fixa.

3 ADVANCED CYCLE MULTIPLICATOR TRAINING

✓ PREREQUISITES

COURSES

- Basic cycle (2)
- Intermediate Cycle / Presentation (3)
- Therapeutic processes (1)
- Two immersions (2)

✓ OTHER ACTIVITIES

- Clinical practice with Florais da Amazônia: (minimum of one year; minimum of 30 attendance forms);
- Internships in courses (6);
- Give lectures and / or workshops (5);
- Participation in Study Groups (optional).

🕒 156h

📖 ACTIVITIES AND WORKS THAT MAKE PART OF THE CERTIFICATION

- Clinical case monitoring reports (5);
- Personal experience report with SFA (2);
- Presentation of a dissertation (1);
- Participation in the Multiplier Certification Meeting (60 hours / different activities that include: defense of the dissertation, presentation of classes (teaching), discussion and defense of the fundamentals of the system, evaluation wheel, among others).

3 ADVANCED CYCLE THERAPY TRAINING

PREREQUISITES

✓ COURSES

- Basic cycle (2)
- Intermediate cycle: Presentation (3) and Therapeutic (3)
- Immersion / Therapeutic (1)
- 158 hours

✓ OTHER ACTIVITIES

- Clinical practice with Florais da Amazônia (minimum of 2 years; minimum of 100 attendance forms)
- Participation in a study group of clinical cases and fundamentals of floral therapy and Florais da Amazônia System- FAS (36 hours).

🕒 194h

📖 ACTIVITIES AND WORKS THAT MAKE PART OF THE CERTIFICATION

To present:

- Clinical case monitoring reports (minimum 12);
- Personal experience report with FAS (2);
- Dissertation on therapeutic fundamentals of the system (1).

NOTE

According to the standards suggested by CONAFLO - Self-Regulatory Council for Floral Therapy - the minimum study hours required for the certification of a floral therapist is 360 hours. Therefore, the therapist who applies for certification must add to the calculation hours of courses and activities with specific hours, all hours of other verifiable activities related to the Florais da Amazônia (extension courses, experiences, course updates, lectures, study groups, case studies, etc.)

EXTENSION CYCLE

Open to anyone interested in expanding their repertoire at FAS who have already attended the introductory - Classification in the Order of Nature.

	Time spent	Prerequisites
i lapuna – Florais do Juruá Introductory The course presents an extension of the Florais da Amazônia research carried out in the Vale do Juruá / Acre, which includes new classification groups in the Order of Nature.	🕒 16h	✓ Prerequisites: - Basic cycle
i lapuna - The Deep Waters of the Self Through contact with the essences of the flowers of an endemic vegetation that lives on the surface of deep and serene lakes, full of mysteries and revelations, the experience invites you to dive within, in the deep waters, memories, feelings and emotions.	🕒 12h	✓ Prerequisites: - Basic cycle - lapuna introductory
i lapuna - Anchoring and Expansion of Being Through the essences of the flowers of palm trees, the experience provides contact with higher levels of consciousness, providing expansion and lightness, and bringing nutrition for realization on the earth plane.	🕒 12h	✓ Prerequisites: - Basic cycle - lapuna introductory
i lapuna - Interdependence and Autonomy between Beings This experience presents a profound study of the nature of the relationships between beings and their interdependence, based on the work with the essences of parasitic plants.	🕒 12h	✓ Prerequisites: - Basic cycle - lapuna introductory

EXTENSION CYCLE

Open to anyone interested in expanding their repertoire at FAS who have already attended the introductory - Classification in the order of nature.

Amazonian Florals in Animal Care

The module presents research on the use of flower essences in the treatment of animals and their tutors, focusing on integral health and the balance of relationships.

Time spent

 10h

Prerequisites

 Prerequisites:
- Classification in the order of nature
