8. EXCESSORIES

Do the best you can with what you've got. When packing for life at sea, first you need to make sure you have the bare necessities to survive covered. Then, if space and resources allow it's time to bring on the accessories or should - I say "excessories" - to thrive. These are items that you could do without if you had to, but you should bring if you can.

9. ORGANIZATIONAL GEAR & SPACE DIVIDERS

These are useful to have once you have gotten hired and are moving onto the boat. You can wait and purchase these items until then if luggage space is an issue.
