

Now that you understand intervals, all that's left is to learn the interval formulas that we use to build different chords. First, let's look at the most basic chord types "triads." There are six different widespread ones we're going to learn.

TRIADS SUMMARY			
Name	Formula	Notes	Symbol
MAJOR	1 3 5	C E G	C
MINOR	1 b3 5	C Eb G	Cm, Cmin, C-
AUGMENTED	1 3 #5	C E G#	C+, Caug, C#5
DIMINISHED	1 b3 b5	C Eb Gb	C ^o , Cdim, Cminb5
SUSPENDED 4th	1 4 5	C F G	Csus, Csus4, C4
SUSPENDED 2nd	1 2 5	C D G	Csus2, C2
