

ART SUPPLIES FOR STUDENTS BASED IN THE USA

As you may know, I started my career as a watercolorist back in 2015 while living in NYC. During this time, I discovered the shop Dick Blick and, since then, it has been my all time favourite art shop.

For this reason I decided to affiliate with them to offer you the list of materials that I currently use in my practice with a direct link to shop with them. The list below are either the supplies that I used during the class or their equivalent in the USA market (some brands have different names in the UK).

If you buy something through these links, I may earn a commission at not extra cost to you. Please note that I have not received free products or any exchange for mentioning them. I genuinely recommend these products and shop.

PORCELAIN 150 PAINT
