

DRYING TIME FASTEST TO SLOWEST

Odorless Mineral Spirits

Underpainting's Best Friend. Apply with a brush or spray bottle to create drips/runs

1 day or less

Galkyd Lite

Mix with a brush or palette knife. Layers can dry within a day or two. Thickness and certain colors (white takes the longest) can increase drying time up by several days

1-5 Days

Gamblin Galkyd Gel

Useful, neater, but more expensive alternative to Galkyd Lite.

Few Days- Week

Fat medium (Chelsea Classical Studio).

Fantastic tool when painting "wet on wet". Mix with a brush or palette knife. Faster alternative to Walnut Oil. Only a small amount is needed and has a lavender scent.

Few days - Week

Raw Oil Paint straight from the tube

Weeks to months
